

Market Data Peak Statistics Now Available on Cboe Customer Web Portal for Cboe Global Markets Equities, Futures, and Options Exchanges

Reference ID: C2019091000

Overview

Cboe Global Markets is pleased to announce that, effective immediately, Members will be able to download files that capture market data peak statistics. Files are available via the Cboe Customer Web Portal for the Cboe Equities One Feed, Cboe BYX Equities, BZX Equities, EDGA Equities, EDGX Equities, BZX Options, C2 Options, and EDGX Options Exchanges, as well as the Cboe Futures Exchange, LLC (CFE). Files will also be made available for the new Cboe Options Exchange platform soon after the October 7, 2019 migration, *pending regulatory approval*.

Technical Details

The Market Data Peak Statistics tool is listed under “Member Tools” on the Cboe Customer Web Portal. Market data peak files are organized by applicable exchange market data feed. These files also include matching engine, measurement interval, message rate, and data transfer rate details. The Market Data Peaks Statistics tool requires the Market Data Administrator privilege. Using the User Management tool within the Cboe Customer Web Portal, Firm Account Administrators may grant the Market Data Administrator privilege to Members.

Files will be created daily in a downloadable .csv file format. Daily files will be available for download on a T+1 basis. Members can also download a file that contains the historical maximum peaks for the lifetime of the exchange.

Additional Information

For additional information on the Market Data Peaks Statistics tool, refer to the following technical specification.
