

Procedure for Submission of Changes to Bandwidth, Quote Risk Monitor, and Risk Controls for Cboe Options Exchange

Reference ID: C2019062502

Overview

For Cboe Options Exchange, the Operations Support Center (OSC) performs changes to Bandwidth, Quote Risk Monitor (QRM), and Risk Controls when requested by an authorized Trading Permit Holder. This notice is being issued to prescribe the format in which these requests should be submitted to the OSC.

In order to ensure proper settings are implemented by the OSC, TPHs must submit an [OSC Change Request Form](#) to osc@cboe.com. In addition, any updates desired to be in place prior to the open must be submitted by 8:00 a.m. CT to ensure settings are established in a timely manner.

This procedure will remain in effect until the migration of Cboe Options Exchange (C1) to Bats technology. After migration, TPHs will manage their own risk controls via the Customer Web Portal.

Additional Information:

Please contact the Cboe Operations Support Center (“OSC”) with any questions.

We appreciate your business and remain committed to powering your potential with Cboe products, technologies and solutions.
