Cboe Silexx Software Enhancements

Reference ID: C2020030900

Overview

Cboe Silexx is excited to announce **effective today, March 9, 2020,** the following enhancements are available:

- FLEX orders in adjusted series (i.e., corporate actions) are now supported

- $ is now optional in underlying field for indices (i.e., SPX is accepted in addition to $SPX)

- Duplicate leg warning provides immediate notice for efficiency

- Risk reject messages indicate reject level (Firm, User, Account) for clarity

- Customize colors for side, price, and market data via File > Settings > Colors

Please contact Cboe Silexx Support with any questions.

We appreciate your business and remain committed to powering your potential with Cboe products, technologies, and solutions.
