Reference ID: C2019112001

Overview

Applicable Cboe Exchanges: C2 Options & CFE

As previously announced, Cboe plans to move out of 400 S. La Salle in Chicago over the next two years. In preparation for this move, please be advised that in July 2020 the Disaster Recovery ("DR") environments for both C2 Options Exchange ("C2 Options") and Cboe Futures Exchange ("CFE") will be relocated from 400 S. La Salle (Chicago) to reside at 350 Cermak (Chicago) with our other equities and options DR platforms.

This July 2020 data center migration will be seamless and will require no customer updates. Target network addresses and ports will not be modified and firm connectivity to the DR environments will continue to be supported from both 350 Cermak and 400 S. La Salle at this time.
