

Reminder -- Good Friday Trading Schedule

See the [press release](#) for Cboe Global Markets' exchanges trading schedule in observance of the Good Friday and Easter holidays. For details on CFE's modified trading schedule, refer to the [Tradedesk Update](#).

Technology Integration Customer Call Next Thursday

REMINDER: Cboe plans to hold its next technology integration customer conference call **Thursday, April 5**, beginning at 9:30 a.m. CT/10:30 a.m. ET. The call will provide updates on the migrations of both the C2 Options Exchange and Cboe Options Exchange to Bats technology. The Cboe Options update will include the initial planned migration timeline.

- **Dial-In (Toll Free):** 1-877-883-0383
- **Dial-In (International):** 1-412-902-6506
- **Participant Code:** 5835972

The call will also be webcast, which can be accessed [here](#). See the [Tradedesk Update](#) for details or visit the [customer communications page](#) on the technology integration microsite for complete details.

C2 Migration Planned for May 14, Next Saturday Test to be Held on April 14

The C2 Options Exchange migration to Bats technology remains on track for **Monday, May 14, 2018**.

Saturday, April 14 Test Schedule	
7:30 am CT	C2 Options production environment available for connection
7:30 am CT	Pre-open queuing session begins
8:30 am CT	Regular market trading session opens
11:00 am CT	Regular market trading session closes
OCC will participate with C2 during the test of the new C2 production trading platform.	

The next weekend test is scheduled for **Saturday, April 14**. If you have not participated in a previous weekend test, we strongly encourage you to participate in this upcoming session. Following the April 14 test, there will be one final readiness test on Saturday, May 12.

Trading of test symbols and series in the new C2 production environment on a daily basis -- Monday through Friday -- has been available since March 5. Refer to the [C2 integration website](#) for additional details.

SPX Conversion to Hybrid Platform Update

Effective **April 30**, Cboe Options Exchange plans to convert A.M.-settled S&P 500 Index (SPX) options series currently traded on the Hybrid 3.0 trading platform during regular trading hours to the standard Hybrid trading platform. See the [Tradedesk Update](#) for a complete overview.

Cboe Europe Signs Saxo Bank as New Indices Customer

Saxo Bank, the online trading and investment specialist, has signed a license agreement to utilize 15 Cboe Europe national benchmark indices. See the [press release](#).

Cboe Vest Launches First ETF

Cboe Vest, a majority-owned asset management subsidiary of Cboe Global Markets, has launched the Cboe Vest S&P 500® Dividend Aristocrats Target Income ETF (Ticker: KNG). The new ETF is the first in a suite of "Options 2.0 ETFs" that Cboe Vest plans to launch this year. For more information, visit cboevestetfs.com.

Cboe Announces Launch for Cboe Market Close

Cboe plans to introduce Cboe Market Close (CMC), a closing match process for non-Cboe Listed securities, on the Cboe BZX Exchange on **August 20, 2018**, contingent upon SEC reaffirming the staff's initial approval.

The mechanism, first proposed in May 2017, allows participants to route Market-On-Close (MOC) orders to CMC on Cboe's BZX Exchange, where they are pre-matched with other MOC orders. When the primary exchange closing price is published, pre-matched trades are executed, saving participants from paying closing auction fees on orders that are not price forming.

See the [press release](#) for additional details.

We encourage your input on these and other exchange matters. Please feel free to contact us.
