Cboe BZX Options to List Russell 2000 Index Options on Monday

BZX Options Exchange will begin listing options on the Russell 2000 (RUT) effective **Monday, October 1**. RUT options are currently traded on the Cboe and C2 Options exchanges. For the complete rollout schedule and for additional details, see the [Tradedesk Update](#).

Cboe Announces Date of Third-Quarter 2018 Earnings Release and Conference Call

Cboe will announce its financial results for the third quarter of 2018 before the market opens on **Friday, November 2**. A conference call with remarks by the company's senior management will begin at 7:30 a.m. CT. For more information, see the [press release](#).

Cboe RMC Europe Paves Way for RMC Tel Aviv

Cboe wrapped up another great Risk Management Conference this month with more than 180 participants at the 7th annual Cboe RMC Europe in County Wicklow, Ireland. Cboe now plans to bring its premier educational event to Tel Aviv, Israel, for the first time this **November 6**, to meet the growing demand seen throughout the region in a new one-day RMC.

The conference is planned to feature 10 sessions over one day, with presentations and discussions led by 12 highly regarded industry experts. David M. Blitzer, Managing Director and Chairman of the Index Committee at S&P Dow Jones Indices, will provide the keynote speech on "The Economic Climate Heats Up." The full agenda and registration details are now available at www.cboermctelaviv.com.

Cboe Europe Plans to Launch Equities Trading in Three New Markets

Cboe Europe plans to expand its coverage to 18 markets across Europe with the expected launch of trading in Polish, Hungarian and Czech securities beginning **Monday, November 5**, pending regulatory review. Trading will be available on Cboe Europe lit order books (BXE and CXE), Periodic Auctions, Cboe LIS and Exchange Trade Reports (ETR). Cboe Europe will not offer dark order book trading in these securities. For more information, see the [press release](#).

Expanded Pre-Open Hours for CFE Products

On **Monday, October 8**, subject to regulatory review, Cboe Futures Exchange (CFE) will adjust the start of the Pre-Open (queuing) period for all futures contracts, with the exception of Cboe Volatility Index (VIX) futures and Cboe Bitcoin (USD) (XBT) futures. The start time of the pre-open period for all non-VX and XBT products will be updated from 6:00 a.m. CT on that business day to 5:00 p.m. CT on the previous calendar day to align with VIX and XBT futures. See the [Tradedesk Update](#).

C2 and EDGX Options Exchanges Add Support for Auction Responses on Bulk BOE Ports

Beginning **Friday, October 5**, updated functionality that will allow all auction responses over Bulk BOE Ports will become available for Cboe C2 and EDGX options exchanges. For details, read the [Tradedesk Update](#).

Equities Purge Ports Effective October 1

On **Monday, October 1**, Cboe plans to introduce Equities Purge Ports that will provide members with additional functionality to manage risk and exercise control over their open orders across the Cboe equities exchanges. See the [Tradedesk Update](#).

Cboe EDGX Exchange Announces Availability of Midpoint Discretionary Orders (MDO)

Cboe EDGX Equities Exchange will introduce a Midpoint Discretionary Order (MDO) type effective **Wednesday, October 3**. An order with the MDO instruction functions as a primary peg order with discretion that automatically extends to the midpoint of the NBBO. MDO orders can be displayed or hidden. EDGX currently supports MDO in the certification environment. For more, read the [Tradedesk Update](#).

We encourage your input on these and other exchange matters. Please feel free to contact us.
