

This sector represents services designed to promote or enhance transmission of voice, data, and video over various communications mediums, including cable, satellite, terrestrial-based wireless, and wireline mediums. The parent index is the Cboe Europe All Companies (BEUAC). The index base level is 10,000 as of December 31st, 2010. This is a price return index.

Objective

The index is designed for use in the creation of index tracking funds, derivatives and as a performance benchmark.

Investability

Stocks are selected and weighted to ensure that the index is investable.

Liquidity

Stocks are screened to ensure that the index is tradable.

Transparency

Uses a transparent, rules-based construction process. Index Rules are freely available on the cboe.com/indexeurope website.

Availability

Calculation is based on price and total return methodologies, both real-time, intra-second and end of day.
