

Decommissioning Process for Physical Connectivity to BATS in NJ2 and via the NY5 PoP

Overview

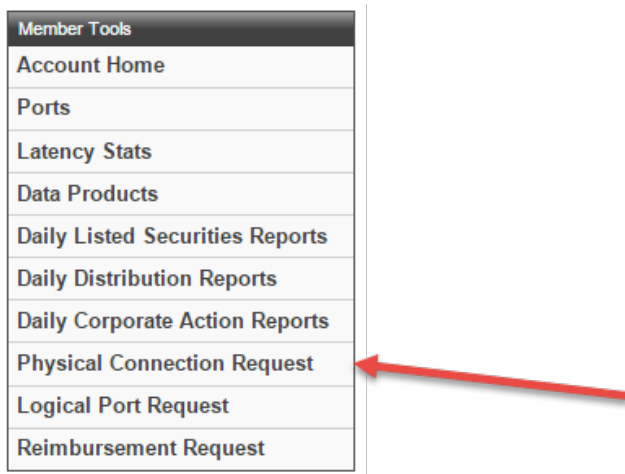

BATS will complete the migration of the BZX Exchange and BYX Exchange from the Weehawken NJ2 data center to the Secaucus NY5 data center effective Monday May 4, 2015. On the effective date, the NJ2 data center will continue to provide connectivity to all BATS/EDGE markets as a network Point of Presence (PoP).

Customers that no longer require the use of the NJ2 or NY5 PoP physical connections as of May 4th may request that their ports be decommissioned on May 2, 2015. Customers that submit their request to decommission NY5 PoP or NJ2 physical connections **BEFORE May 1, 2015** will have those physical port fees waived for the month of May 2015. Customers will be permitted to use the ports on Friday, May 1 for the final day of trading on BYX Exchange and BZX Exchange.

Decommissioning Process

Please be advised that customers will need to submit a request to have their ports decommissioned from the [BATS Web Portal](#). Note that only Members with BATS Member Web Portal access that are designated by their firm to have access for requesting new ports will be able to utilize this form. Access to the form can be obtained by contacting the [BATS Trade Desk](#).

1. From the Account page, select "Physical Connection Request"

2. Select "Delete"

Physical Connection Request

Add	Delete	
-----	--------	--

3. Fill out the Physical Connection Request form, providing as much detail about the connections you wish to delete as possible. Please provide provider cable ID's and peer IP address(s) in the Additional Notes section. Click "Submit" to send the request to BATS NOC. A service ticket will be generated with the NOC and your physical ports will be queued for deletion.

Physical Connection Request

Add	Delete
