

CXA Technical Roadmap Deployment Timeline and Consultation Response Paper

Thursday 2 April 2026

Reference ID: 0004|26

Cboe Australia (CXA) is pleased to share the updated [2026 Roadmap](#) and [2026 Trading Enhancements Consultation Response Paper](#) following the completion of the consultation period and our client facing [Roadmap Presentation](#).

Consultation Feedback

As a result of the consultation process, CXA has simplified the roadmap and will not proceed with certain proposals, most notably, the proposed changes to CXA's trading timetable. Further details are contained in the response paper.

Technical Details

Each item in the updated [Roadmap Webpage](#) links to its corresponding Product Document, which includes technical details.

Testing Opportunities

The [Roadmap Webpage](#) clarifies items that are available **for testing now** in our Cert environment:

- **OCS** – Existing Timed Expiring Orders can now be rolled out **per Account**
- **Trading Priority Refinement** – Pegged Farpoint then Midpoint then Nearpoint

Additional Information

We appreciate your business. Our trading community inspires and drives our purpose of building trusted markets. CXA remains committed to enhancing participant functionality and investor outcomes whilst focusing on optionality to reduce or eliminate industry impact.
