## **SCHEDULE**

### **INFORMATION ON REGULATORY SAFEGUARDS THAT DO NOT APPLY FOR “ACCREDITED INVESTORS”**

Section 6 of the Securities and Futures Act, Chapter 289 of Singapore (the “**SFA**”) provides that no person shall establish or operate a market unless the person is an approved exchange or a recognized market operator (“**RMO**”). In determining whether a market operator should be regulated as an approved exchange or an RMO, the Monetary Authority of Singapore (the “**MAS**”) has stated in the Guidelines on the Regulation of Markets (the “**Guidelines**”) that it will consider whether the market is systemically-important and other relevant circumstances, including the nature of the investors or participants. A market that is widely used by retail investors (i.e. investors who are not accredited investors (“**AIs**”) or institutional investors) is more likely to be considered systemically important, and will therefore be required to be regulated as an approved exchange under the SFA.

In this regard, Cboe Futures Exchange, LLC (“**CFE**”) is regulated by the MAS as an RMO and retail investors are not permitted to trade on CFE’s markets. By indicating that you are an AI, you will be permitted to trade on CFE’s markets. As an RMO, CFE is not subject to the more onerous requirements that an approved exchange is subject to under the SFA, the Securities and Futures (Markets) Regulations 2005 (the “**Markets Regulations**”) and the other regulations, notices and guidelines issued under the SFA.

This Schedule summarizes the main differences in the regulatory obligations that apply to approved exchanges and to RMOs. As an AI, you may trade on the markets operated by CFE, but you will forego the additional regulatory safeguards that investors or participants would benefit from if they trade instead on an approved exchange.

Unless otherwise stated, references in this Schedule to “sections” are to sections of the SFA. References in this Schedule to “regs” are to regulations of the Markets Regulations, unless specified to be references to other subsidiary legislation.

		Approved Exchange	Recognised Market Operator	Comments
1.	Access for participation Section 16(1)(d)	<p>Section 16(1)(d) provides that an approved exchange must ensure that access for participation in its facilities is subject to criteria that are fair and objective, and designed to ensure the orderly functioning of the market and to protect the interests of the investing public.</p> <p>The Guidelines further provide that such criteria should not be unnecessarily restrictive and should not limit access to the market on grounds other than that of risks to the fair, orderly and transparent operations of the market.</p>	-	There is no similar statutory obligation for an RMO.
2.
