

# Cboe Options Exchange SPEQX RTH LMM Incentive Program

Last Updated: 01/22/26

## LMM Incentive Program Application

Cboe Options (the “Exchange”) will be accepting applications from interested Trading Permit Holders (TPHs) for the Lead Market-Maker (LMM) role in the Regular Trading Hours (RTH) session for Cboe S&P 500 Equal Weight Index Options (Symbol: SPEQX) for the purposes of the SPEQX RTH LMM Incentive Program (“Program”), *subject to regulatory review*.

Interested parties must submit application materials to become a SPEQX RTH LMM **no later than 4:00 p.m. ET on Tuesday, January 27, 2026**, to Cboe Membership Services. The application link can be found [here](#). Please contact [Cboe Membership Services](#) with any application questions.

## LMM Incentive Program Details

The Exchange intends to select one candidate to serve as the SPEQX RTH LMM from **February 1, 2026 through March 31, 2026**, taking into consideration various factors, including those set forth in [Cboe Options Rule 3.55](#).

As any Market-Maker, an LMM appointed to the Program has a regulatory obligation to maintain continuous two-sided quotes in 60% of the series with 270 days or less to expiration in its appointed products for at least 90% of the time it is quoting during all trading sessions (to be measured across all of its class appointments collectively) and satisfy all other Market-Maker obligations set forth in Cboe Options Rule 5.51.

The SPEQX RTH LMM Incentive Program set forth in the Cboe Options Fee Schedule provides that a SPEQX RTH LMM meeting or exceeding the Program’s heightened quoting standards (provided below) in a month will receive a compensation payment for that month in the amount of \$15,000 (subject to change and announced by Exchange Notice/Fee Schedule, *subject to regulatory review*). To receive the monthly payments, 90% of the series must have qualifying post-opening-rotation quotes from the appointed LMM 90% of the time between 9:30 a.m. ET until 4:00 p.m. ET. Cboe Options notes that meeting or exceeding the heightened quoting standards to receive a compensation payment as described above is optional for a SPEQX RTH LMM. The Exchange may consider other exceptions to this quoting standard based on demonstrated legal or regulatory requirements or other mitigating

circumstances. A “qualifying” quote is one that is no wider than the amount set forth in the table below, and such quotes will qualify only after the series is open (i.e., pre-opening quotes do not count).

In calculating whether an LMM meets the Program’s heightened quoting standards, the Exchange will exclude from the calculation each month the business day in which the LMM missed the Program’s heightened quoting standards in the highest number of series.

As pre-open quotes do not count towards the Program’s quoting standards, the LMM should be aware that the system will not allow a series to open unless the composite market (i.e., the BBO comprised of appointed Market-Maker quotes in SPEQX) is no wider than the MCW/OCW widths defined in Cboe Options Rule 5.31(a) and presented in the below table, unless there are no orders to trade or limit orders that cross the mid-point of the composite market:

Composite Market Bid Price	Max Composite Width
\$0.00 - \$1.99	0.50
\$2.00 - \$5.00	0.80
\$5.01 - \$10.00	1.00
\$10.01 - \$20.00	2.00
\$20.01 - \$50.00	3.00
\$50.01 - \$100.00	5.00
\$100.01 - \$200.00	8.00
Greater than \$200.00	12.00
