

**CFE Information Circular IC17-041**

**Date:** October 26, 2017

**To:** Trading Privilege Holders and Independent Software Vendors

**From:** CFE Systems Development

**RE:** CFE Migration Connectivity Responsibilities for TPHs Using an ISV

---

CFE has issued a notice that describes certain steps that CFE Trading Privilege Holders (“TPHs”) using an Independent Software Vendor (“ISV”) need to take in order to access the new CFE trading platform. These responsibilities should be completed well before the CFE migration cutover date as to prevent inability of trading on CFE on the migration date. TPHs and ISVs should refer to the [CFE Migration Connectivity Responsibilities for Trading Privilege Holders Using an Independent Software Vendor](#) document for full details.
