Subject: Market Index Target Term Securities (MITTS) Linked to the Performance of the Dow Jones EURO STOXX 50 Index

Information on the Notes

Merrill Lynch & Co., Inc. Market Index Target Term Securities (MITTS) Linked to the Performance of the Dow Jones EURO STOXX 50 Index. 2.5 million shares were issued at \$10.00 per note with a maturity date of June 28, 2010.

As more fully set forth in the Prospectus Supplement, each \$10.00 principal amount of the securities will be deemed a "Unit" for purposes of trading and transfer.

At maturity, the investor receives in cash an amount to the Principal Amount plus a Supplemental Redemption Amount equal to the greater of:

- Zero (0), or
- $\text{Principal Amount} * ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value}) * \text{Participation Rate (104\%)}$

where:

- i. the Ending Value is the arithmetic average of the Market Measure at the close of the market on five business days shortly prior to the maturity of the MITTS Securities: and
- ii. the Starting Value is the value of the Market Measure at the close of business on the Pricing Date.

The Starting Value of the Dow Jones EURO STOXX 50 Index is 4112.10

It is expected that the market value of the MLB will depend substantially on the value of the Dow Jones EURO STOXX 50 Index and be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yields of the stocks comprising the Index, and the credit ratings of the Issuer.

Trading in the shares on EDGA and EDGX Exchanges (the “Exchanges”) is on a UTP basis and is subject to the Exchanges equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value (“IIV”). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Members also should review NASD Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

This Regulatory Information Bulletin is not a statutory Prospectus. Members should consult the Trust’s Registration Statement, SAI, Prospectus and the Fund’s website for relevant information.
