**Issuer/Trust:** UBS AG

**Issuer/Trust Website:** [www.ubs.com/e-tracs](http://www.ubs.com/e-tracs)

**Primary Listing Exchange:** NYSE Arca

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in this new product on the Exchange, as well as to provide certain characteristics and features of the Notes.

**Background Information on the Notes**

As more fully explained in the Prospectus Supplement dated June 11, 2014 and the Base Prospectus dated January 11, 2012 for the ETRACS Wells Fargo MLP Ex-Energy ETN due June 10, 2044 (the "ETNs") (File No. 333-178960), the return of the ETNs is linked to the Wells Fargo Master Limited Partnership ex Energy Index (the "Index"). The ETNs do not guarantee any return of principal at maturity, but the investor may receive periodic interest payments under the circumstances described in the pricing supplement and a cash payment at maturity or upon early redemption based on the performance of the Index. The ETNs are senior unsecured obligations of UBS AG (the "Issuer"), acting through its London branch, which mature on June 10, 2044.

The Index is intended to measure the performance of all non-energy master limited partnerships ("MLPs") listed on the NYSE, NYSE MKT or NASDAQ with a market capitalization of at least \$100 million at the time of inclusion. A class of MLP units must have been listed on the NYSE, NYSE MKT or NASDAQ for at least 30 days immediately before any evaluation date to be considered for inclusion in the Index.

"Non-energy MLPs" are entities that are MLPs, as defined by the United States Department of the Treasury regulations, and derive a majority of their income from non-energy related activities. "Non-energy related activities" generally exclude the exploration, development, mining or production,

processing, refining, transportation (including pipelines transporting natural gas, oil, or products thereof), or marketing of any mineral or natural resource (including fertilizer, geothermal energy, and timber).

The Index is independently calculated by NYSE Arca, Inc. The value of the Index is reported on Bloomberg under ticker symbol “MLPXEPM <Index>”.

The ETNs are subject to early redemption or acceleration in whole or in part at any time. Accordingly, an investor should not expect to be able to hold the ETNs to maturity. Additionally, the ETNs do not guarantee any return of principal at, or prior to, maturity or call, or upon early redemption. Instead, at maturity, investors will receive a cash payment, the amount of which will vary depending on the performance of the Index and will be reduced by the accrued tracking fee as of the last Business Day in the measurement period and may be zero.

The ETNs may be redeemed early, at the investor's option, subject to a minimum redemption amount of 50,000 securities. Upon such early redemption, the investor will receive a cash payment that is based on the performance of the Index, less the accrued tracking fee and redemption fee.

The ETNs' initial indicative value current value on the initial valuation date will equal \$25.00. The closing indicative value on any business day after the inception date will be equal to the product of (i) the Principal Amount and (ii) a fraction, the numerator of which is equal to the Index level as of such date and the denominator of which is equal to the initial Index level.

The Intraday Indicative Value for the ETNs will be disseminated by market data vendors under the symbol FMLP.IV.

Please see the prospectus for the Notes for more details regarding the calculations and details regarding the Index.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

### **Exchange Rules Applicable to Trading in the Notes**

Trading in the Notes on BATS is subject to BATS equity trading rules.

### **Trading Hours**

The Notes will trade on BATS between 8:00 a.m. and 5:00 p.m. ET. The Notes will trade on EDGA and EDGX between 8:00 a.m. and 8:00 p.m. ET.

Please note that trading in the Notes during the Exchange's Pre-Opening and After Hours/Post Closing Trading Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Market Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

### **Suitability**

Trading in the securities on the Exchange will be subject to the provisions of Exchange Rule 3.7. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer. Members should adopt appropriate procedures for the

opening and maintaining of accounts, including the maintaining of records prescribed by any applicable regulatory organization and by the rules and regulations of the Commission.

### **Trading Halts**

The Exchange will halt trading in the shares of a security in accordance with Exchange Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

**This Information Circular is not a statutory prospectus. Exchange Members should consult the prospectus for a security and the security's website for relevant information.**
