

## CFE Regulatory Circular RG23-003

**Date:** October 25, 2023

**Exchanges:** CFE

**Markets:** Futures

**To:** Trading Privilege Holders

**Re:** Update to Audit Trail Data Request Layouts Including Options on Futures

---

On September 25, 2023, Cboe Futures Exchange, LLC (“CFE” or the “Exchange”) issued CFE Regulatory Circular RG23-002 providing CFE Trading Privilege Holders (“TPHs”) with an updated audit trail data layout that had been revised to address reporting formats that apply when responding to data requests from CFE Regulation related to activity that derives from any CFE options on futures product. The effective date for use of the updated layout was to be October 29, 2023.

However, that circular was withdrawn and removed from the CFE website and the October 29, 2023, effective date is no longer applicable. An updated layout will be published soon and the new effective date for use of the updated layout will be announced via another circular at that time.

### **Additional Information**
