

Regulatory Circular **RG-02-79**

Date: October 7, 2002

To: Trading Floor Community

From: Facilities Committee

Re: Food Service

The Facilities Committee would like to take this opportunity to inform you of some changes to our food service. Effective on Monday, October 7, a new food service provider will be managing the Members Lounge. The Lounge will now be managed by ARAMARK, which manages numerous cafeterias and food services operations in the Chicago loop and outlying areas. We are confident that we will see improved service and an improved menu in the Lounge. Also, the 2<sup>nd</sup> floor food service area will remain open for the purchase of food items at that location.

In an attempt to improve on the cleanliness of the Members Lounge and to provide the best possible environment for our new food service provider, the Facilities Committee has decided that no outside food (pizzas, sub-sandwiches, etc.) will be allowed in the 4<sup>th</sup> floor Members Lounge. You may, however, continue to bring outside food to the 2<sup>nd</sup> floor cafeteria. The Committee appreciates your cooperation in this manner.

Please contact a member of the Facilities Committee or John Johnston @786-7303 if you have any questions on this issue. Thank you very much.
