Regulatory Circular RG08-24

Date: February 6, 2008

To: Members, Member Firms, and Member Organizations

From: Trading Operations

Re: Change of Opening Trigger for NASDAQ Option Classes

This circular updates RG08-20. The circular had indicated that on February 7, 2008, CBOE would implement a change to the CBOE Hybrid System that will cause all option classes overlying NASDAQ-listed stocks to go into a rotation state as soon as there is a last sale in a NASDAQ-listed stock reported from **any** stock market. (Currently the Hybrid System moves from pre-open state to rotation state for option classes overlying NASDAQ-listed stocks only when a NASDAQ print occurs.)

Please be advised that the date for the changeover is being postponed until **February 11, 2008**.

Questions regarding this change may be directed to Kerry Winters at (312) 786-7312 or the SBT Help Desk at (866) 728-2263.
