### Updates Regulatory Circular [RG17-62](#)

CBOE Regulatory Circular RG17-62 announced that the quote rate and quote call rate bandwidth allowance will be doubled for each trading permit assigned to a CBOE Market Maker that has an SPX/SPXW appointment in the Regular Trading Hours (RTH) or Extended Trading Hours (ETH) sessions, effective April 26, 2017. This change will now take effect on April 28, 2017.

This change does not impact quoting and order entry bandwidth packets, nor does it impact order entry bandwidth allowances.

TPHs wishing to test this functionality in the CBOE development environment may contact the CBOE API Group at 312-786-7300 or [api@cboe.com](mailto:api@cboe.com) for further information.
