Re: CBOE Futures Exchange, LLC Rule Certification  
Submission Number CFE-2005-24

Dear Ms. Webb:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended ("Act"), and §40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission ("Commission") under the Act, CBOE Futures Exchange, LLC ("CFE" or "Exchange") hereby submits this rule change ("Amendment") to amend CFE Rules 1502(k) and 1602(k) to adjust the "no bust range" under CFE's error trade policy (set forth in CFE Rule 416 and CFE Policy and Procedure III) for CFE's Mini-Russell 2000 Index and Russell 1000 Index futures contracts. Specifically, the Amendment establishes a no bust range in percentage terms instead of in absolute index point levels so that the "no bust range" does not need to be adjusted as the applicable index value changes to maintain the equivalent "no bust range" in relation to that index value. This is consistent with the "no bust ranges" for CFE's other products which are also expressed in percentage terms.

The Amendment will become effective on August 8, 2005.

CFE is not aware of any substantive opposing views to the Amendment. CFE hereby certifies that the Amendment complies with the Act and the regulations thereunder.

\* \* \* \* \*

**Rule 1502. Contract Specifications**

(k) *No-Bust Range.* Pursuant to Rule 416, the CFE error trade policy may only be invoked for a trade price that is greater than .5% [three index points, which is equal to \$300.00,] on either side of the market price of the applicable Mini-Russell 2000 Index futures contract. In accordance with Policy and Procedure III, the Help Desk will determine what the true market price for the relevant Contract was immediately before the potential error trade occurred. In making that determination, the Help Desk may consider all relevant factors, including the last trade price for such Contract, a better bid or offer price, a more recent price in a different contract month and the prices of related contracts trading in other markets.

**Rule 1602 Contract Specifications**

(k) *No-Bust Range.* Pursuant to Rule 416, the CFE error trade policy may only be invoked for a trade price that is greater than .5% [three index points, which is equal to \$1,500.00,] on either side of the market price of the applicable Russell 1000 Index futures contract. In accordance with Policy and Procedure III, the Help Desk will determine what the true market price for the relevant Contract was immediately before the potential error trade occurred. In making that determination, the Help Desk may consider all relevant factors, including the last trade price for such Contract, a better bid or offer price, a more recent price in a different contract month and the prices of related contracts trading in other markets.
