Item 2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by the Exchange's Office of the Chairman pursuant to delegated authority on May 23, 2007.

Item 3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

I. TickerXpress Fees

TickerXpress ("TX") is an Exchange service that supplies market data to Exchange market-makers trading on the Hybrid Trading System. The Exchange proposes to amend its Fees Schedule as it relates to TX fees.

Currently, the Exchange charges members receiving TX market data a fee of \$100 per month and charges members receiving "enhanced" TX market data a fee of \$200 per month. Enhanced TX data is data that has been processed so that it can be used by market-makers utilizing quoting software. Recently, the Exchange's costs to process TX data have increased. The Exchange proposes to eliminate the \$100 per month and \$200 per month TX fees and replace them with a fee of \$300 per month for enhanced TX market data only. The proposed fee would help compensate the Exchange for its increased costs in providing this data to Exchange members.

From time to time one or more third party service providers may make available for license to TX users software for the use and display of market data ("TX Software"). The Exchange may also in the future make such software available to TX users. The Exchange proposes to adopt a fee of \$100 per TX user per month for use of TX Software. The proposed fee will help the Exchange offset the license fees the Exchange pays its third party service provider for providing the TX Software to Exchange members or offset the Exchange's own costs in making such software available.

2. CBSX Market Data Infrastructure Fee

CBSX has contracted with a third party market data vendor and other parties to help establish facilities at CBSX through which the third party market data vendor can provide CBSX participants with certain market data. The monthly cost to CBSX for maintaining the infrastructure to help make this market data available is \$19,400. CBSX proposes to assess CBSX participants that receive this market data a monthly fee to recoup the fees CBSX pays for providing the infrastructure to make this market data available. The amount of the monthly fee shall be equal to \$19,400 divided by the number of CBSX participants receiving the data.

The Exchange intends to implement the proposed fee changes on June 1, 2007.

Statutory Basis.

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 ("Act")¹, in general, and furthers the objectives of Section 6(b)(4)² of the Act in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among CBOE members.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

² 15 U.S.C. 78f(b)(4).

Item 5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

Item 6. Extension of Time Period for Commission Action

Not applicable.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The proposed rule change is designated by the Exchange as establishing or changing a due, fee, or other charge, thereby qualifying for effectiveness on filing pursuant to Section 19(b)(3)(A)(ii)³ of the Act and subparagraph (f)(2) of Rule 19b-4⁴ thereunder.

I. TickerXpress Fees

TickerXpress ("TX") is an Exchange service that supplies market data to Exchange market-makers trading on the Hybrid Trading System. The Exchange proposes to amend its Fees Schedule as it relates to TX fees.

Currently, the Exchange charges members receiving TX market data a fee of \$100 per month and charges members receiving "enhanced" TX market data a fee of \$200 per month. Enhanced TX data is data that has been processed so that it can be used by market-makers utilizing quoting software. Recently, the Exchange's costs to process TX data have increased. The Exchange proposes to eliminate the \$100 per month and \$200 per month TX fees and replace them with a fee of \$300 per month for enhanced TX market data only. The proposed fee would help compensate the Exchange for its increased costs in providing this data to Exchange members.

From time to time one or more third party service providers may make available for license to TX users software for the use and display of market data ("TX Software"). The Exchange may also in the future make such software available to TX users. The Exchange proposes to adopt a fee of \$100 per TX user per month for use of TX Software. The proposed fee will help the Exchange offset the license fees the Exchange pays its third party service provider for providing the TX Software to Exchange members or offset the Exchange's own costs in making such software available.

2. CBSX Market Data Infrastructure Fee

CBSX has contracted with a third party market data vendor and other parties to help establish facilities at CBSX through which the third party market data vendor can provide CBSX participants with certain market data. The monthly cost to CBSX for maintaining the infrastructure to help make this market data available is \$19,400. CBSX proposes to assess CBSX participants that receive this market data a monthly fee to recoup the fees CBSX pays for providing the infrastructure to make this market data available. The amount of the monthly fee shall be equal to \$19,400 divided by the number of CBSX participants receiving the data.

The Exchange intends to implement the proposed fee changes on June 1, 2007.
