Re: CBOE Futures Exchange, LLC Rule Certification
Submission Number CFE-2009-19

Dear Mr. Stawick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended ("Act"), and §40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission under the Act, CBOE Futures Exchange, LLC ("CFE" or "Exchange") hereby submits an amendment ("Amendment") to its rules relating to the CBOE Russell Volatility Index futures contract to change the execution allocation method for this contract.

Currently, the execution allocation method for the CBOE Russell Volatility Index futures contract is price-time priority with a Designated Primary Market Maker ("DPM") trade participation right priority overlay. Pursuant to the Amendment, the CBOE Russell Volatility Index futures contract will be traded without a DPM solely using the price-time priority execution allocation method (and no DPM trade participation right priority overlay).

The Amendment will become effective on December 28, 2009.

CFE is not aware of any substantive opposing views to the Amendment. CFE hereby certifies that the Amendment complies with the Act and the regulations thereunder.

The Amendment, marked to show deletions in [bracketed] text, consists of the following:

* * * * *

Rule 1602. Contract Specifications

(a) - (f) No change.
