3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend EDGA Rule 11.14(d) to exclude all rights and warrants from the single stock circuit breaker under the rule. The Commission approved EDGA Rule 11.14 on a pilot basis on June 10, 2010 to provide for trading pauses in individual securities due to extraordinary market volatility (“Trading Pause”) in all securities included within the S&P 500® Index (“S&P 500”) (“Pause Pilot”).¹ The Exchange noted in its filing to adopt EDGA Rule

¹ The Commission approved the Pause Pilot for all equities exchanges and FINRA.

11.14 that during the Pause Pilot period it would continue to assess whether additional securities need to be added and whether the parameters of EDGA Rule 11.14 would need to be modified to accommodate trading characteristics of different securities. The Exchange subsequently received approval to add to the Pause Pilot the securities included in the Russell 1000[®] Index (“Russell 1000”) and a specified list of Exchange Traded Products (“ETPs”).²

On June 23, 2011, the Commission approved proposed rule changes of the Exchanges to amend certain of their respective rules to expand the Pause Pilot to include all remaining NMS stocks (“Phase III Securities”), which included rights and warrants.³ Unlike the original Pause Pilot securities, the rules of primary listing markets apply wider percentage price moves to the Phase III Securities

² The Commission approved the addition to the Pause Pilot of the securities included in the Russell 1000 and ETPs, where applicable, for all equities exchanges and FINRA. See Securities Exchange Act Release No. 62884 (September 10, 2010), 75 FR 56618 (September 16, 2010) (File Nos. The Exchange submitted a proposed rule change shortly after the addition of the Russell 1000 securities and ETPs to extend the operation of the Pause Pilot, which was set to expire on December 10, 2010, until April 11, 2011. See Securities Exchange Act Release No. 63514 (December 9, 2010), 75 FR 78783 (December 16, 2010) (SR-EDGA-2010-23). On April 5, 2011, the Exchange submitted a proposed rule change to further extend the Pause Pilot until the earlier of August 11, 2011 or the date on which a limit up / limit down mechanism to address extraordinary market volatility, if adopted, applies. See Securities Exchange Act Release No. 64204 (April 6, 2011), 76 FR 20394 (April 12, 2011) (SR-EDGA-2011-11).

³ Securities Exchange Act Release No. 64735 (June 23, 2011), 76 FR 38243 (June 29, 2011) (SR-EDGA-2011-15 and Amendment No. 1 thereto, et al).

before a trading pause is triggered.⁴ These changes to the rules of primary listing markets became effective on August 8, 2011.

Various exchanges and national securities associations, including the Exchange, have analyzed the nature of the trading pauses triggered since adoption of the Pause Pilot and noted that over 25% of such pauses have occurred in rights and warrants. Further, several primary listing markets have experienced a significant increase in trading pauses involving rights and warrants since the implementation of the Phase III Securities, with such pauses representing approximately 52% all trading pauses occurring through the end of August 2011. Rights and warrants trade on equity exchanges, but are closely related to call options. Rights and warrants entitle owners to purchase shares of stock at predetermined prices subject to various timing and other conditions. Like options, the price of rights and warrants are affected by the price of the underlying stock as well as other factors, particularly the volatility of the stock. As a consequence, the prices of rights and warrants may move more dramatically than the prices of the underlying stocks even when the rights and warrants (and the underlying stock) are trading in an orderly manner. This difference in trading behavior may result in a scenario whereby the rights and warrants trigger the circuit breaker under the rules of various primary listing markets and are subject to a trading pause, even while the underlying stock continues to trade. This can be particularly true of rights and warrants that have low prices. Accordingly, EDGA is proposing to exclude rights and warrants from the trading pauses issued by primary listing markets, as referenced in EDGA Rule 11.14(d).

(b) Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),⁵ in general, and furthers the objectives of Section 6(b)(5),⁶ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system. The proposed rule change also is designed to support the principles of Section

⁴ Under the rules of primary listing markets, (i.e. Nasdaq Rule 4120(a)(11)), a pause is triggered by a 30% or more price move in a Phase III Security priced at \$1 or higher, and by a 50% or more price move to such a security priced less than \$1. The price of a security is based on the closing price on the previous trading day, or, if no closing price exists, the last sale reported to the Consolidated Tape on the previous trading day.

⁶ 15 U.S.C. 78f(b)(5).

11A(a)(1)⁷ of the Act in that it seeks to ensure fair competition among brokers and dealers and among exchange markets. The Exchange believes that the proposed rule meets these requirements because it excludes certain securities from the rule's coverage that are prone to triggering pauses because of their unique characteristics. These securities are unique in that they may move more dramatically than the prices of the underlying stocks to which they are related even when both securities are trading in an orderly manner. As such, the securities that are subject to this proposal may trigger the circuit breaker under the rules of various primary listing markets and be subject to a trading pause, even while the underlying security continues to trade. Although there is little benefit in pausing trading in these securities, such pauses sequester regulatory resources that are better applied to the review of trading pauses in other securities that have a greater impact on the national market system.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁸ and Rule 19b-4(f)(6)⁹ thereunder in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time

as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange requests that the Commission waive the 30-day pre-operative waiting period contained in Exchange Act Rule 19b-4(f)(6)(iii).¹⁰ The Exchange requests this waiver because it will allow the change to be operative as soon as possible in order to avoid further triggers of primary listing markets' trading pauses in rights and warrants, thereby avoiding the confusion caused by such pauses. Because similar rule filings are being proposed by other markets, the Exchange believes that removing such securities from the rule's coverage will maintain transparency and uniformity regarding decisions to pause trading and reduce the negative impacts of sudden, unanticipated price movements in individual securities covered by the pilot, yet uniformly eliminate pauses in securities prone to triggering the rule because of their unique nature. As such, the Exchange believes that implementation of proposal should not be delayed.

Self-Regulatory Organizations; EDGA Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend EDGA Rule 11.14 to Exclude from the Pilot Rule All Rights and Warrants.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 22, 2011, the EDGA Exchange, Inc. (the "Exchange" or the "EDGA") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend EDGA Rule 11.14 to exclude from the pilot rule all rights and warrants. The text of the proposed rule change is attached as Exhibit 5 and is available on the Exchange's website at www.directedge.com, at the Exchange's principal office, and at the Public Reference Room of the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning

² 17 CFR 240.19b-4.

the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Purpose

The Exchange proposes to amend EDGA Rule 11.14(d) to exclude all rights and warrants from the single stock circuit breaker under the rule. The Commission approved EDGA Rule 11.14 on a pilot basis on June 10, 2010 to provide for trading pauses in individual securities due to extraordinary market volatility (“Trading Pause”) in all securities included within the S&P 500® Index (“S&P 500”) (“Pause Pilot”).³ The Exchange noted in its filing to adopt EDGA Rule 11.14 that during the Pause Pilot period it would continue to assess whether additional securities need to be added and whether the parameters of EDGA Rule 11.14 would need to be modified to accommodate trading characteristics of different securities. The Exchange subsequently received approval to add to the Pause Pilot the securities included in the Russell 1000® Index (“Russell 1000”) and a specified list of Exchange Traded Products (“ETPs”).⁴

³ The Commission approved the Pause Pilot for all equities exchanges and FINRA. See Securities Exchange Act Release No. 62252 (June 10, 2010), 75 FR 34186 (June 16, 2010) (File Nos. SR-BATS-2010-014; SR-EDGA-2010-01; SR-EDGX-2010-01; SR-BX-2010-037; SR-ISE-2010-48; SR-NYSE-2010-39; SR-NYSEAmex-2010-46; SR-NYSEArca-2010-41; SR-NASDAQ-2010-061; SR-CHX-2010-10; SR-NSX-2010-05; and SR-CBOE-2010-047) and Securities Exchange Act Release No. 62251 (June 10, 2010), 75 FR 34183 (June 16, 2010) (SR-FINRA-2010-025).

⁴ The Commission approved the addition to the Pause Pilot of the securities

On June 23, 2011, the Commission approved proposed rule changes of the Exchanges to amend certain of their respective rules to expand the Pause Pilot to include all remaining NMS stocks (“Phase III Securities”), which included rights and warrants.⁵ Unlike the original Pause Pilot securities, the rules of primary listing markets apply wider percentage price moves to the Phase III Securities before a trading pause is triggered.⁶ These changes to the rules of primary listing markets became effective on August 8, 2011.

included in the Russell 1000 and ETPs, where applicable, for all equities exchanges and FINRA. See Securities Exchange Act Release No. 62884 (September 10, 2010), 75 FR 56618 (September 16, 2010) (File Nos. SR-BATS-2010-018; SR-BX-2010-044; SR-CBOE-2010-065; SR-CHX-2010-14; SR-EDGA-2010-05; SR-EDGX-2010-05; SR-ISE-2010-66; SR-NASDAQ-2010-079; SR-NYSE-2010-49; SR-NYSEAmex-2010-63; SR-NYSEArca-2010-61; and SR-NSX-2010-08 and Securities Exchange Act Release No. 62883 (September 10, 2010), 75 FR 56608 (September 16, 2010) (SR-FINRA-2010-033). The Exchange submitted a proposed rule change shortly after the addition of the Russell 1000 securities and ETPs to extend the operation of the Pause Pilot, which was set to expire on December 10, 2010, until April 11, 2011. See Securities Exchange Act Release No. 63514 (December 9, 2010), 75 FR 78783 (December 16, 2010) (SR-EDGA-2010-23). On April 5, 2011, the Exchange submitted a proposed rule change to further extend the Pause Pilot until the earlier of August 11, 2011 or the date on which a limit up / limit down mechanism to address extraordinary market volatility, if adopted, applies. See Securities Exchange Act Release No. 64204 (April 6, 2011), 76 FR 20394 (April 12, 2011) (SR-EDGA-2011-11).

⁵ Securities Exchange Act Release No. 64735 (June 23, 2011), 76 FR 38243 (June 29, 2011) (SR-EDGA-2011-15 and Amendment No. 1 thereto, et al).

⁶ Under the rules of primary listing markets, (i.e. Nasdaq Rule 4120(a)(11)), a pause is triggered by a 30% or more price move in a Phase III Security priced at \$1 or higher, and by a 50% or more price move to such a security priced less than \$1. The price of a security is based on the closing price on the previous trading day, or, if no closing price exists, the last sale reported to the Consolidated Tape on the previous trading day.

Various exchanges and national securities associations, including the Exchange, have analyzed the nature of the trading pauses triggered since adoption of the Pause Pilot and noted that over 25% of such pauses have occurred in rights and warrants. Further, several primary listing markets have experienced a significant increase in trading pauses involving rights and warrants since the implementation of the Phase III Securities, with such pauses representing approximately 52% all trading pauses occurring through the end of August 2011. Rights and warrants trade on equity exchanges, but are closely related to call options. Rights and warrants entitle owners to purchase shares of stock at predetermined prices subject to various timing and other conditions. Like options, the price of rights and warrants are affected by the price of the underlying stock as well as other factors, particularly the volatility of the stock. As a consequence, the prices of rights and warrants may move more dramatically than the prices of the underlying stocks even when the rights and warrants (and the underlying stock) are trading in an orderly manner. This difference in trading behavior may result in a scenario whereby the rights and warrants trigger the circuit breaker under the rules of various primary listing markets and are subject to a trading pause, even while the underlying stock continues to trade. This can be particularly true of rights and warrants that have low prices. Accordingly, EDGA is proposing to exclude rights and warrants from the trading pauses issued by primary listing markets, as referenced in EDGA Rule 11.14(d).

Basis

The proposed rule change is consistent with Section 6(b) of the Act,⁷ in general, and furthers the objectives of Section 6(b)(5),⁸ in particular, in that it is designed to

⁷ 15 U.S.C. 78f(b).

prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system. The proposed rule change also is designed to support the principles of Section 11A(a)(1)⁹ of the Act in that it seeks to ensure fair competition among brokers and dealers and among exchange markets. The Exchange believes that the proposed rule meets these requirements because it excludes certain securities from the rule's coverage that are prone to triggering pauses because of their unique characteristics. These securities are unique in that they may move more dramatically than the prices of the underlying stocks to which they are related even when both securities are trading in an orderly manner. As such, the securities that are subject to this proposal may trigger the circuit breaker under the rules of various primary listing markets and be subject to a trading pause, even while the underlying security continues to trade. Although there is little benefit in pausing trading in these securities, such pauses sequester regulatory resources that are better applied to the review of trading pauses in other securities that have a greater impact on the national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

⁹ 15 U.S.C. 78k-1(a)(1).

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6)¹¹ thereunder in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

A proposed rule change filed under Rule 19b-4(f)(6)¹² normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹³ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative as soon as possible in order to avoid further triggers of primary listing markets' trading pauses in rights and warrants, thereby avoiding the confusion caused by such pauses. Because similar rule filings are being proposed by other markets, the Exchange

believes that removing such securities from the rule's coverage will maintain transparency and uniformity regarding decisions to pause trading and reduce the negative impacts of sudden, unanticipated price movements in individual securities covered by the pilot, yet uniformly eliminate pauses in securities prone to triggering the rule because of their unique nature. As such, the Exchange believes that implementation of proposal should not be delayed.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
