1. Text of the Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² EDGX Exchange, Inc. (“EDGX” or the “Exchange”) is filing with the Securities and Exchange Commission (the “Commission”) a proposed rule change to amend Rule 11.11, Routing to Away Trading Centers, to: (i) enable Users³ to designate their orders for participation in the re-opening (following a halt, suspension, or pause) of a primary listing market (BATS, NYSE, Nasdaq, NYSE MKT, or NYSE Arca) if received before the re-opening time of such market; and (ii) amend the ROOC routing option to remove a provision regarding not routing orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause. The Exchange has designated this proposal as non-controversial and provided the Commission with the notice required by Rule 19b-4(f)(6)(iii) under the Act.⁴ The Exchange requests that the Commission waive the 30-day pre-operative waiting period contained in Rule 19b-4(f)(6)(iii) under the Act.⁵

The text of the proposed rule change is available on the Exchange’s website at www.batstrading.com, at the Exchange’s principal office and at the Public Reference Room of the Commission.

Exchange staff will advise the Exchange's Board of Directors of any action taken pursuant to delegated authority. 3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend Rule 11.11, Routing to Away Trading Centers, to: (i) enable Users⁶ to designate their orders for participation in the re-opening (following a halt, suspension, or pause) of a primary listing market (BATS, NYSE, Nasdaq, NYSE MKT, or NYSE Arca); and (ii) amend the ROOC routing option to remove a provision regarding not routing orders in BATS listed securities designated for

⁶ The term "User" is defined as "any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to Rule 11.3." See Exchange Rule 1.5(ee).

participation in the re-opening process on BATS following a halt, suspension, or pause.

The Exchange currently offers the ROOC routing option, under which Users may designate their orders for participation in the opening or closing process, in addition to the re-opening (following a halt, suspension, or pause), of a primary listing market, if received before the opening/re-opening/closing time of such market.⁷ However, some Users only wish that their orders be routed to participate in the primary market's re-opening process, and not its opening or closing processes. Therefore, the Exchange proposes to enable Users to designate their orders for participation in the re-opening of a primary listing market.

The proposed optionality would operate like the current ROOC routing option, but for routing to the primary listing market's opening or closing process. Lastly, like the ROOC routing option, any remaining shares will either be posted to the EDGX Book, executed, or routed to destinations on the System routing table.⁸ Should no halt, suspension, or pause occur on the primary listing market, such orders would remain on the EDGX Book, executed, or routed to destinations on the System routing table.

In addition, the Exchange proposes to amend the ROOC routing option to remove a provision regarding not routing orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause. Previously, due to system limitations, the Exchange was unable to route orders in BATS listed securities to participate in the re-opening process on BATS following a halt,

⁷ See Exchange Rule 11.11(g)(8).

⁸ The term "System routing table" refers to the proprietary process for determining the specific options exchanges to which the System routes orders and the order in which it routes them. See Exchange Rule 11.11(g).

suspension or pause. In such case, the orders remained on the EDGX Book⁹ and became eligible for execution once the halt, suspension, or pause has been lifted. The Exchange has since performed the necessary system modifications and removed this restriction from its system. The Exchange is now able to route orders in BATS listed securities to BATS to participate in the reopening following a halt, suspension or pause pursuant to the ROOC routing option. Therefore, the Exchange proposes to remove this restriction from the description of the ROOC routing option under Rule 11.11.

(b) Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. Certain Users whose orders are resting on the EDGX Book may wish that their order only be routed to the primary market's re-opening process following a halt, suspension or pause, and not the primary market's opening or closing processes. The proposed rule change promotes just and equitable principles of trade because it would provide such Users with additional flexibility where they wish that their order only be eligible to route to the primary listing market to participate in the re-opening process

⁹ The term "EDGX Book" is defined as "the System's electronic file of orders." See Exchange Rule 1.5(d).

¹¹ 15 U.S.C. 78f(b)(5).

following a halt, suspension or pause. In addition, and as discussed above, the proposed rule change is similar to the Exchange's current ROOC routing option.

The Exchange also believes its proposal to remove a provision from the description of the ROOC routing option regarding not routing orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause is consistent with Section 6(b)(5) of the Act¹² in that it intended to make the Exchange's rules clearer and less confusing for investors by eliminating a provision that is no longer necessary. Previously, due to system limitations, the Exchange was unable to route orders in BATS listed securities to participate in the re-opening process on BATS following a halt, suspension or pause. The Exchange has since removed this restriction from its system. The proposed change updates the description of the ROOC routing option to remove this restriction for BATS listed securities as the Exchange is now able to route such orders to BATS to participate in the opening process following a halt, suspension or pause. Therefore, the Exchange believes the proposal removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest because it would enable the Exchange to treat orders in BATS listed securities that are subject to the ROOC routing option like NYSE and Nasdaq listed securities and route such order to the re-opening process on BATS following a halt, suspension or pause.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposal will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The

¹² Id.

Exchange believes that its proposal would increase competition because it offers Users an alternative means to route orders to the primary listing market to participate in the re-opening following a halt, suspension, or pause as if they entered orders on that market directly. In addition, the proposed rule change amendment to the ROOC routing option is not designed to address any competitive issues but rather avoid investor confusion by updating the rule text to reflect current system functionality.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Not applicable.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)¹³ of the Act and Rule 19b-4(f)(6)¹⁴ thereunder. The proposed rule change effects a change that (A) does not significantly affect the protection of investors or the public interest; (B) does not impose any significant burden on competition; and (C) by its terms, does not become operative for thirty (30) days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest; provided that the self-regulatory organization has given the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing

¹³ 15 U.S.C. 78s(b)(3)(A).

¹⁴ 17 CFR 240.19b-4(f)(6).

of the proposed rule change, or such shorter time as designated by the Commission.¹⁵

The Exchange believes that the proposed rule change meets the criteria of subparagraph (f)(6) of Rule 19b-4¹⁶ because the proposed rule change is similar to the Exchange's current ROOC routing option, under which Users may designate their orders for participation in the opening or closing process, in addition to the re-opening (following a halt, suspension, or pause), of a primary listing market if received before the opening/re-opening/closing time of such market.¹⁷ In addition, the Exchange believes that the proposed updates to the description of the ROOC routing option also meet the criteria of subparagraph (f)(6) of Rule 19b-4¹⁸ because it would enable the Exchange to treat orders in BATS listed securities that are subject to the ROOC routing option like NYSE and Nasdaq listed securities and route such order to the re-opening process on BATS following a halt, suspension or pause.. Therefore, the proposal does not propose any new or unique functionality that has not already been considered by the Commission. Accordingly, the Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A) of the Act¹⁹ and paragraph (f)(6) of Rule 19b-4 thereunder.²⁰

The Exchange respectfully requests that the Commission waive the 30-day operative delay so that the proposed rule change may become effective and operative

upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act²¹ and paragraph (f)(6) of Rule 19b-4 thereunder.²² Waiver of the operative delay is consistent with the protection of investors and the public interest because it will allow the Exchange to route orders in BATS listed securities subject to the ROOC routing option to participate on BATS in a reopening following a halt, suspension or pause should a trading halt occur during the operative delay period. Therefore, Exchange requests that the Commission waive the 30 day operative delay.

At any time within sixty (60) days of the filing of such proposed rule change, the Commission may summarily temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

(Release No. 34-_____; File No. SR-EDGX-2015-46)

Self-Regulatory Organizations; EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend Rule 11.11, Routing to Away Trading Centers

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on _____, EDGX Exchange, Inc. (the “Exchange” or “EDGX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated this proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6)(iii) thereunder,⁴ which renders it effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend Rule 11.11, Routing to Away Trading Centers, to: (i) enable Users⁵ to designate their orders for participation in the re-opening

(following a halt, suspension, or pause) of a primary listing market (BATS, NYSE, Nasdaq, NYSE MKT, or NYSE Arca) if received before the re-opening time of such market; and (ii) amend the ROOC routing option to remove a provision regarding not routing orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause.

The text of the proposed rule change is available at the Exchange's website at www.batstrading.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 11.11, Routing to Away Trading Centers, to: (i) enable Users⁶ to designate their orders for participation in the re-opening (following a halt, suspension, or pause) of a primary listing market (BATS, NYSE,

⁶ The term "User" is defined as "any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to Rule 11.3." See Exchange Rule 1.5(ee).

Nasdaq, NYSE MKT, or NYSE Arca); and (ii) amend the ROOC routing option to remove a provision regarding not routing orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause. The Exchange currently offers the ROOC routing option, under which Users may designate their orders for participation in the opening or closing process, in addition to the re-opening (following a halt, suspension, or pause), of a primary listing market, if received before the opening/re-opening/closing time of such market.⁷ However, some Users only wish that their orders be routed to participate in the primary market's re-opening process, and not its opening or closing processes. Therefore, the Exchange proposes to enable Users to designate their orders for participation in the re-opening of a primary listing market.

The proposed optionality would operate like the current ROOC routing option, but for routing to the primary listing market's opening or closing process. Lastly, like the ROOC routing option, any remaining shares will either be posted to the EDGX Book, executed, or routed to destinations on the System routing table.⁸ Should no halt, suspension, or pause occur on the primary listing market, such orders would remain on the EDGX Book, executed, or routed to destinations on the System routing table.

In addition, the Exchange proposes to amend the ROOC routing option to remove a provision regarding not routing orders in BATS listed securities designated for

⁷ See Exchange Rule 11.11(g)(8).

⁸ The term "System routing table" refers to the proprietary process for determining the specific options exchanges to which the System routes orders and the order in which it routes them. See Exchange Rule 11.11(g).

participation in the re-opening process on BATS following a halt, suspension, or pause. Previously, due to system limitations, the Exchange was unable to route orders in BATS listed securities to participate in the re-opening process on BATS following a halt, suspension or pause. In such case, the orders remained on the EDGX Book⁹ and became eligible for execution once the halt, suspension, or pause has been lifted. The Exchange has since performed the necessary system modifications and removed this restriction from its system. The Exchange is now able to route orders in BATS listed securities to BATS to participate in the reopening following a halt, suspension or pause pursuant to the ROOC routing option. Therefore, the Exchange proposes to remove this restriction from the description of the ROOC routing option under Rule 11.11.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. Certain Users whose orders are resting on the EDGX Book may wish that their order only be routed to the primary market's re-opening process following a halt,

⁹ The term "EDGX Book" is defined as "the System's electronic file of orders." See Exchange Rule 1.5(d).

¹⁰ 15 U.S.C. 78f(b).

suspension or pause, and not the primary market's opening or closing processes. The proposed rule change promotes just and equitable principles of trade because it would provide such Users with additional flexibility where they wish that their order only be eligible to route to the primary listing market to participate in the re-opening process following a halt, suspension or pause. In addition, and as discussed above, the proposed rule change is similar to the Exchange's current ROOC routing option.

The Exchange also believes its proposal to remove a provision from the description of the ROOC routing option regarding not routing orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause is consistent with Section 6(b)(5) of the Act¹² in that it intended to make the Exchange's rules clearer and less confusing for investors by eliminating a provision that is no longer necessary. Previously, due to system limitations, the Exchange was unable to route orders in BATS listed securities to participate in the re-opening process on BATS following a halt, suspension or pause. The Exchange has since removed this restriction from its system. The proposed change updates the description of the ROOC routing option to remove this restriction for BATS listed securities as the Exchange is now able to route such orders to BATS to participate in the opening process following a halt, suspension or pause. Therefore, the Exchange believes the proposal removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest because it would enable the Exchange to treat orders in BATS listed securities that are subject to

¹² Id.

the ROOC routing option like NYSE and Nasdaq listed securities and route such order to the re-opening process on BATS following a halt, suspension or pause.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposal will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that its proposal would increase competition because it offers Users an alternative means to route orders to the primary listing market to participate in the re-opening following a halt, suspension, or pause as if they entered orders on that market directly. In addition, the proposed rule change amendment to the ROOC routing option is not designed to address any competitive issues but rather avoid investor confusion by updating the rule text to reflect current system functionality.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A) of the Act¹³ and paragraph (f)(6) of Rule 19b-4 thereunder.¹⁴ The proposed rule change effects a change that (A) does not significantly affect the protection of investors or the public interest; (B) does not impose any significant burden on competition; and (C) by its terms, does not become operative for 30 days after the date of

¹³ 15 U.S.C. 78s(b)(3)(A).

the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest; provided that the self-regulatory organization has given the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily temporarily suspend such rule change if it appears to the Commission that such action is: (1) necessary or appropriate in the public interest; (2) for the protection of investors; or (3) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

Unless the terms of the order direct the Exchange not to route such order away, if a Market Order or marketable Limit Order has not been executed in its entirety pursuant to 11.10(a)(4) above, the order shall be eligible for routing away pursuant to one or more of the routing options listed under paragraph (g) below.

(a) – (f) (No change).

(g) (No change).

(1) – (7) (No change).

(8) ROOC. ROOC is a routing option for orders that the entering firm wishes to designate for participation in the opening, re-opening (following a halt, suspension, or pause), or closing process of a primary listing market (BATS, NYSE, Nasdaq, NYSE MKT, or NYSE Arca) if received before the opening/re-opening/closing time of such market. If shares remain unexecuted after attempting to execute in the opening, re-opening, or closing process, they are either posted to the EDGX Book, executed, or routed to destinations on the System routing table. [Orders in BATS listed securities designated for participation in the re-opening process on BATS following a halt, suspension, or pause will remain on the EDGX Book and be eligible for execution once the halt, suspension, or pause has been lifted.]

(9) – (13) (No change).

(14) A User may designate their order for participation in the re-opening (following a halt, suspension, or pause) of a primary listing market (BATS, NYSE, Nasdaq, NYSE MKT, or NYSE Arca) if received before the re-opening time of such market. If shares remain unexecuted after attempting to execute in the re-opening process, they are either posted to the EDGX Book, executed, or routed to destinations on the System routing table.
