Item 1. Text of the Proposed Rule Change

(a) Chicago Board Options Exchange, Incorporated (the “Exchange” or “CBOE”) proposes to amend its Fees Schedule. The text of the proposed rule change is provided in Exhibit 5.

(b) Not applicable.

(c) Not applicable.

Item 2. Procedures of the Self-Regulatory Organization

(a) The Exchange’s President (or designee) pursuant to delegated authority approved the proposed rule change on December 1, 2016.

(b) Please refer questions and comments on the proposed rule change to Joanne Moffic-Silver, Executive Vice President, General Counsel, and Corporate Secretary, (312) 786-7462, or Corinne Klott (312) 786-7793, Chicago Board Options Exchange, Incorporated, 400 South LaSalle, Chicago, Illinois 60605.

Item 3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend its Fees Schedule. Specifically, the Exchange proposes to increase the transaction fee for electronic executions by broker-dealers, non-Trading Permit Holder (“non-TPH”) Market-Makers, Professionals/Voluntary Professionals and Joint Back-Offices (“JBOs”) in Penny Pilot equity, ETF, ETN and index options (excluding Underlying Symbol List A) classes from \$0.45 per contract to \$0.47 per contract. The Exchange notes that this increase is in line with the amount assessed by another exchange for similar transactions.¹

¹ See e.g., NASDAQ PHLX Pricing Schedule, Section II, Multiply Listed Options Fees.

(b) Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.² Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)³ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,⁴ which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities.

Increasing the fee for electronic executions by broker-dealers, non-TPH Market-Makers, Professionals/Voluntary Professionals and JBOs in Penny Pilot equity, ETF, ETN and index options (excluding Underlying Symbol List A) classes is reasonable because the proposed fee amount is in line with the amount assessed by another exchange for similar transactions.⁵ The Exchange believes that this proposed change is also equitable and not unfairly discriminatory because the Exchange will assess broker-

dealers, non-TPH Market-Makers, Professionals/Voluntary Professionals and JBOs the same electronic options transaction fees in Penny Pilot options classes. The Exchange notes that it does not assess Customers the electronic options transaction fees in Penny Pilot options because Customer order flow enhances liquidity on the Exchange for the benefit of all market participants. Specifically, Customer liquidity benefits all market participants by providing more trading opportunities, which attracts Market-Makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. The Exchange notes that Market-Makers are assessed lower electronic options transaction fees in Penny Pilot options as compared to Professionals, JBOs, Broker Dealers and non-Trading Permit Holder Market-Makers because they have obligations to the market and regulatory requirements, which normally do not apply to other market participants (e.g., obligations to make continuous markets). Clearing Trading Permit Holder Proprietary orders are assessed lower options transaction fees in Penny Pilot options because they also have obligations, which normally do not apply to other market participants (e.g., must have higher capital requirements, clear trades for other market participants, must be members of OCC). Accordingly, the differentiation between electronic transaction fees for Customers, Market-Makers, Clearing Trading Permit Holders and other market participants recognizes the differing obligations and contributions made to the liquidity and trading environment on the Exchange by these market participants.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that are not necessary or appropriate in furtherance of the

purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because, while the proposed fee increase applies only to certain market participants, the other market participants have different obligations and different circumstances (as described in the “Statutory Basis” section above). For example, Clearing TPHs have clearing obligations that other market participants do not have. Market-Makers have quoting obligations that other market participants do not have. There is also a history in the options markets of providing preferential treatment to Customers. The Exchange does not believe that the proposed change will cause any unnecessary burden on intermarket competition because the proposed change only affects trading on CBOE. To the extent that the proposed changes make CBOE a more attractive marketplace for market participants at other exchanges, such market participants are welcome to become CBOE market participants.

Item 5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

Item 6. Extension of Time Period for Commission Action

Not applicable.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2) or Section 19(b)(7)(D)

(a) The proposed rule change is filed for immediate effectiveness pursuant to Section 19(b)(3)(A) of the Act⁶ and Rule 19b-4(f)(2)⁷ thereunder.

(b) The Exchange designates that the proposed rule change establishes or changes a due, fee, or other charge imposed by the Exchange, which renders the proposed rule change effective upon filing with the Securities and Exchange Commission (the “Commission”). At any time within 60 days of the filing of this proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fees Schedule. Specifically, the Exchange proposes to increase the transaction fee for electronic executions by broker-dealers, non-Trading Permit Holder ("non-TPH") Market-Makers, Professionals/Voluntary Professionals and Joint Back-Offices ("JBOs") in Penny Pilot equity, ETF, ETN and index options (excluding Underlying Symbol List A) classes from \$0.45 per contract to \$0.47 per contract. The Exchange notes that this increase is in line with the amount assessed by another exchange for similar transactions.³

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁴ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁵ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in

securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,⁶ which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities.

Increasing the fee for electronic executions by broker-dealers, non-TPH Market-Makers, Professionals/Voluntary Professionals and JBOs in Penny Pilot equity, ETF, ETN and index options (excluding Underlying Symbol List A) classes is reasonable because the proposed fee amount is in line with the amount assessed by another exchange for similar transactions.⁷ The Exchange believes that this proposed change is also equitable and not unfairly discriminatory because the Exchange will assess broker-dealers, non-TPH Market-Makers, Professionals/Voluntary Professionals and JBOs the same electronic options transaction fees in Penny Pilot options classes. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. The Exchange notes that Market-Makers are assessed lower electronic options transaction fees in Penny Pilot options as compared to Professionals, JBOs,

Broker Dealers and non-Trading Permit Holder Market-Makers because they have obligations to the market and regulatory requirements, which normally do not apply to other market participants (e.g., obligations to make continuous markets). Clearing Trading Permit Holder Proprietary orders are assessed lower options transaction fees in Penny Pilot options because they also have obligations, which normally do not apply to other market participants (e.g., must have higher capital requirements, clear trades for other market participants, must be members of OCC). Accordingly, the differentiation between electronic transaction fees for Customers, Market-Makers, Clearing Trading Permit Holders and other market participants recognizes the differing obligations and contributions made to the liquidity and trading environment on the Exchange by these market participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that are not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because, while the proposed fee increase applies only to certain market participants, the other market participants have different obligations and different circumstances (as described in the "Statutory Basis" section above). For example, Clearing TPHs have clearing obligations that other market participants do not have. Market-Makers have quoting obligations that other market participants do not have. There is also a history in the options markets of providing preferential treatment to Customers. The Exchange does not believe that the proposed

change will cause any unnecessary burden on intermarket competition because the proposed change only affects trading on CBOE. To the extent that the proposed changes make CBOE a more attractive marketplace for market participants at other exchanges, such market participants are welcome to become CBOE market participants

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
