Such partial amendment shall be clearly identified and marked to show deletions and additions.

Item 1. Text of the Proposed Rule Change

(a) Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act” or “Exchange Act”),¹ and Rule 19b-4 thereunder,² Cboe EDGX Exchange, Inc. (“EDGX” or the “Exchange”) proposes to amend its fees applicable to Members³ and non-Members of the Exchange pursuant to EDGX Rule 15.1(a) and (c) to modify its fees schedule relating to logical and physical connectivity. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

Item 2. Procedures of the Self-Regulatory Organization

(a) The Exchange’s President (or designee) pursuant to delegated authority approved the proposed rule change on June 26, 2018.

(b) Please refer questions and comments on the proposed rule change to Patrick Sexton, Executive Vice President, General Counsel, and Corporate Secretary, (312) 786-7467, or Corinne Klott, (312) 786-7793, 400 South LaSalle, Chicago, Illinois 60605.

Item 3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to implement proposed changes to its fee schedule for its equity options platform (“EDGX Options”) relating to logical and physical connectivity fees, effective July 2, 2018.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ The term “Member” is defined as “any registered broker or dealer that has been admitted to membership in the Exchange.” See Exchange Rule 1.5(n).

Logical Connectivity

The Exchange proposes to amend certain logical connectivity fees. Currently, EDGX Options market participants may utilize a variety of logical connectivity ports. A logical port provides users with the ability within the Exchange's system to accomplish a specific function through a connection, such as order entry, data receipt, or access to information. Currently, with respect to logical port fees, the Exchange only assesses a fee for Purge Ports. Additionally, logical connectivity fees are limited to logical ports in the Exchange's primary data center and no logical port fees are assessed for redundant secondary data center ports.

The Exchange first proposes to adopt a \$500 per month, per port fee for all logical ports excluding Purge, Multicast Pitch Spin Server, GRP and Bulk Ports.⁴ The Exchange notes that fees for these excluded ports are explicitly set forth in the Fees Schedule. The Exchange notes that the proposed fee of \$500 per port is in line with the fee assessed for similar ports on BZX Options and C2 Options.⁵

Next, the Exchange proposes to adopt fees for Multicast PITCH/ Spin Server and GRP ports. Multicast PITCH Spin Server Ports and GRP Ports are used to request and receive a retransmission of data from the Exchange's Multicast PITCH data feed. The Exchange's Multicast PITCH/Top data feed is available from two primary feeds, identified as the "A feed" and the "C feed", which contain the same information but

⁴ The Exchange notes that even though Ports with Bulk Quoting Capabilities ("Bulk Ports") already has its own line item in the logical connectivity fees table, it's not explicitly excluded from the general "Logical Ports" line item. The Exchange proposes to add a reference relating to its exclusion to maintain clarity in the Fees Schedule.

⁵ See Cboe BZX Options Exchange Fee Schedule, Options Logical Port Fees and Cboe C2 Options Exchange Fees Schedule, Logical Connectivity Fees.

differ only in the way such feeds are received. The Exchange also offers two redundant feeds, identified as the “B feed” and the “D feed.” The Exchange proposes to adopt a \$500 per month, per set fee. All secondary feed Multicast PITCH Spin Server and GRP Ports will be provided for redundancy at no additional cost. The Exchange notes that the proposed fee is in line with the fee assessed for the same ports on BZX Options and C2 Options.⁶

Lastly, the Exchange proposes to amend fees for ports with bulk quoting capabilities (“Bulk Ports”). A Bulk Port is a logical port that provides users with the ability to submit bulk messages to enter, modify or cancel orders designated as Post Only Orders, provided such orders are entered with a Time-in-Force of DAY or a Time-in-Force of GTD with an expiration time on that trading day. The Exchange does not currently assess fees for Bulk Ports. The Exchange now proposes to adopt a monthly fee of \$600 per port. The Exchange notes that the proposed Bulk Port fee is less than the fee assessed for similar ports on BZX Options and C2 Options.⁷

Physical Port Clarification

The Exchange next proposes to add clarifying language relating to its Options Physical Connectivity Fees. First, the Exchange proposes to clarify that all Physical Connectivity Fees will be prorated based on the remaining trading days in the calendar month. The Exchange notes that while this is current practice, it is not currently codified under the Options Physical Connectivity Fees section (although similar language is found under the Options Logical Port Fees section). The Exchange also proposes to clarify that

⁶ Id.

⁷ Id.

physical ports (other than Disaster Recovery physical ports) may be used to connect to C2 Options, Cboe BZX, Cboe BYX and Cboe EDGA. Disaster Recovery physical ports may be used to connect to the Disaster Recovery Systems for C2 Options, Cboe BZX, Cboe BYX, Cboe EDGA, Cboe Options and CFE. Additionally, the Exchange proposes to make clear that Members and non-Members will only be assessed a single fee for any physical port or Disaster Recovery physical port that accesses the identified exchanges, respectively. The Exchange notes that similar language appears in the Fees Schedule of C2 Options.⁸

(b) Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁹ Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act¹⁰, which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its Permit Holders and other persons using its facilities. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹¹ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes it’s reasonable to assess the proposed fees for each of the logical connectivity ports described above as the proposed fees enable the Exchange to

¹⁰ 15 U.S.C. 78f(b)(4).

continue to maintain and improve its market technology and services. Additionally, the Exchange notes the proposed fees are in line with, and indeed less than, the fees assessed on certain of its affiliated exchanges for similar connectivity.¹² The proposed logical connectivity fees are also equitable and not unfairly discriminatory because the Exchange will apply the same fees to all market participants that use the same respective connectivity options.

The Exchange also believes it's reasonable, equitable and not unfairly discriminatory to prorate physical connectivity fees because it provides for a more precise assessment of physical connectivity fees based on when a user obtains a new physical port or Disaster Recovery physical port. The Exchange believes it's reasonable, equitable and not unfairly discriminatory to assess a physical port fee only once if it connects with another affiliate exchange because only one port is being used and the Exchange does not wish to charge multiple fees for the same port. The Exchange believes listing the affiliate exchanges that physical ports and Disaster Recovery physical ports can connect to adds clarity to the fee schedule and avoids potential confusion. The alleviation of confusion removes impediments to and perfects the mechanism of a free and open market and a national market system.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change represents a significant departure from pricing offered by the Exchange's affiliates. Additionally,

¹² See Affiliated Exchange Fee Schedules, Logical Port Fees.

members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of members or competing venues to maintain their competitive standing in the financial markets. The Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. Further, excessive fees for connectivity, would serve to impair an exchange's ability to compete for order flow rather than burdening competition. The Exchange also does not believe the proposed rule change would impact intramarket competition as it would apply to all members and non-members equally.

Item 5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

Item 6. Extension of Time Period for Commission Action

Not applicable.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2) or Section 19(b)(7)(D)

(a) The proposed rule change is filed for immediate effectiveness pursuant to Section 19(b)(3)(A) of the Act¹³ and Rule 19b-4(f)(2)¹⁴ thereunder.

(b) The Exchange designates that the proposed rule change establishes or changes a due, fee, or other charge imposed by the Exchange, which renders the proposed rule change effective upon filing with the Securities and Exchange Commission (the

“Commission”). At any time within 60 days of the filing of this proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to implement proposed changes to its fee schedule for its equity options platform ("EDGX Options") relating to logical and physical connectivity fees, effective July 2, 2018.

Logical Connectivity

The Exchange proposes to amend certain logical connectivity fees. Currently, EDGX Options market participants may utilize a variety of logical connectivity ports. A logical port provides users with the ability within the Exchange's system to accomplish a specific function through a connection, such as order entry, data receipt, or access to information. Currently, with respect to logical port fees, the Exchange only assesses a fee for Purge Ports. Additionally, logical connectivity fees are limited to logical ports in the Exchange's primary data center and no logical port fees are assessed for redundant secondary data center ports.

The Exchange first proposes to adopt a \$500 per month, per port fee for all logical ports excluding Purge, Multicast Pitch Spin Server, GRP and Bulk Ports.⁵ The Exchange notes that fees for these excluded ports are explicitly set forth in the Fees Schedule. The Exchange notes that the proposed fee of \$500 per port is in line with the fee assessed for similar ports on BZX Options and C2 Options.⁶

Next, the Exchange proposes to adopt fees for Multicast PITCH/ Spin Server and GRP ports. Multicast PITCH Spin Server Ports and GRP Ports are used to request and receive a retransmission of data from the Exchange's Multicast PITCH data feed. The Exchange's Multicast PITCH/Top data feed is available from two primary feeds, identified as the "A feed" and the "C feed", which contain the same information but differ only in the way such feeds are received. The Exchange also offers two redundant feeds, identified as the "B feed" and the "D feed." The Exchange proposes to adopt a \$500 per month, per set fee. All secondary feed Multicast PITCH Spin Server and GRP Ports will be provided for redundancy at no additional cost. The Exchange notes that the proposed fee is in line with the fee assessed for the same ports on BZX Options and C2 Options.⁷

Lastly, the Exchange proposes to amend fees for ports with bulk quoting capabilities ("Bulk Ports"). A Bulk Port is a logical port that provides users with the

⁵ The Exchange notes that even though Ports with Bulk Quoting Capabilities ("Bulk Ports") already has its own line item in the logical connectivity fees table, it's not explicitly excluded from the general "Logical Ports" line item. The Exchange proposes to add a reference relating to its exclusion to maintain clarity in the Fees Schedule.

ability to submit bulk messages to enter, modify or cancel orders designated as Post Only Orders, provided such orders are entered with a Time-in-Force of DAY or a Time-in-Force of GTD with an expiration time on that trading day. The Exchange does not currently assess fees for Bulk Ports. The Exchange now proposes to adopt a monthly fee of \$600 per port. The Exchange notes that the proposed Bulk Port fee is less than the fee assessed for similar ports on BZX Options and C2 Options.⁸

Physical Port Clarification

The Exchange next proposes to add clarifying language relating to its Options Physical Connectivity Fees. First, the Exchange proposes to clarify that all Physical Connectivity Fees will be prorated based on the remaining trading days in the calendar month. The Exchange notes that while this is current practice, it is not currently codified under the Options Physical Connectivity Fees section (although similar language is found under the Options Logical Port Fees section). The Exchange also proposes to clarify that physical ports (other than Disaster Recovery physical ports) may be used to connect to C2 Options, Cboe BZX, Cboe BYX and Cboe EDGA. Disaster Recovery physical ports may be used to connect to the Disaster Recovery Systems for C2 Options, Cboe BZX, Cboe BYX, Cboe EDGA, Cboe Options and CFE. Additionally, the Exchange proposes to make clear that Members and non-Members will only be assessed a single fee for any physical port or Disaster Recovery physical port that accesses the identified exchanges, respectively. The Exchange notes that similar language appears in the Fees Schedule of C2 Options.⁹

⁸ Id.

⁹ See e.g., Cboe C2 Options Exchange Fees Schedule, Physical Connectivity Fees.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.¹⁰ Specifically, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act¹¹, which provides that Exchange rules may provide for the equitable allocation of reasonable dues, fees, and other charges among its Permit Holders and other persons using its facilities. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹² requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes it’s reasonable to assess the proposed fees for each of the logical connectivity ports described above as the proposed fees enable the Exchange to continue to maintain and improve its market technology and services. Additionally, the Exchange notes the proposed fees are in line with, and indeed less than, the fees assessed on certain of its affiliated exchanges for similar connectivity.¹³ The proposed logical connectivity fees are also equitable and not unfairly discriminatory because the Exchange will apply the same fees to all market participants that use the same respective connectivity options.

¹¹ 15 U.S.C. 78f(b)(4).

¹² 15 U.S.C. 78f(b)(5).

¹³ See Affiliated Exchange Fee Schedules, Logical Port Fees.

The Exchange also believes it's reasonable, equitable and not unfairly discriminatory to prorate physical connectivity fees because it provides for a more precise assessment of physical connectivity fees based on when a user obtains a new physical port or Disaster Recovery physical port. The Exchange believes it's reasonable, equitable and not unfairly discriminatory to assess a physical port fee only once if it connects with another affiliate exchange because only one port is being used and the Exchange does not wish to charge multiple fees for the same port. The Exchange believes listing the affiliate exchanges that physical ports and Disaster Recovery physical ports can connect to adds clarity to the fee schedule and avoids potential confusion. The alleviation of confusion removes impediments to and perfects the mechanism of a free and open market and a national market system.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change represents a significant departure from pricing offered by the Exchange's affiliates. Additionally, members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of members or competing venues to maintain their competitive standing in the financial markets. The Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. Further, excessive fees for connectivity, would serve to impair an exchange's ability to compete for order flow rather than burdening competition. The Exchange also

does not believe the proposed rule change would impact intramarket competition as it would apply to all members and non-members equally.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁴ and paragraph (f) of Rule 19b-4 thereunder.¹⁵ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act. Comments may be submitted by any of the following methods:
