1. Text of the Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> Cboe EDGX Exchange, Inc. (“EDGX” or the “Exchange”) is filing with the Securities and Exchange Commission (the “Commission”) a proposed rule change to amend the Exchange’s fee schedule applicable to its equities trading platform (“EDGX Equities”) to introduce a “Cross-Asset Volume Tier.”

The text of the proposed rule change is attached as Exhibit 5. Material proposed to be added is underlined. Material proposed to be deleted is enclosed in brackets.

(a) The Exchange’s President (or designee) pursuant to delegated authority approved the proposed rule change on January 28, 2019.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The purpose of the proposed rule change is to amend the EDGX Equities fee schedule to introduce a “Cross-Asset Volume Tier” under Footnote 1, effective February 1, 2019.

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

Currently, with respect to the Exchange's equities trading platform, the Exchange determines the liquidity adding rebate that it will provide to Members using the Exchange's tiered pricing structure. The EDGX Equities fee schedule currently contains seven Add Volume Tiers that provide enhanced rebates, ranging from of \$0.0025 to \$0.0033 per share, for orders yielding fee codes B,<sup>3</sup> V,<sup>4</sup> Y,<sup>5</sup> 3<sup>6</sup> and 4.<sup>7</sup> The Exchange proposes to adopt an eighth tier under Footnote 1 called the Cross-Asset Volume Tier. Particularly, the Exchange proposes to create a cross-asset tier which is designed to incentivize members to achieve certain levels of participation on both the Exchange's equities and options platform ("EDGX Options"). As proposed, under the Cross-Asset Volume Tier, a Member would receive a rebate of \$0.0030 per share if that Member (i) adds an ADV<sup>8</sup> greater or equal to 0.20% of the TCV<sup>9</sup> and (ii) has an ADV in Customer orders on EDGX Options greater or equal to 0.10% of average OCV<sup>10</sup>. The Exchange notes that another Exchange has similar cross-asset add volume tiers.<sup>11</sup>

<sup>4</sup> "V" is associated with displayed orders that add liquidity on EDGX for Tape A.

<sup>5</sup> "Y" is associated with displayed orders that add liquidity on EDGX for Tape C.

<sup>6</sup> "3" is associated with displayed orders that add liquidity on EDGX for Tape A or C during the post-market or pre-market trading sessions.

<sup>7</sup> "4" is associated with displayed orders that add liquidity on EDGX for Tape B during the post-market or pre-market trading sessions.

<sup>8</sup> "ADV" means average daily volume calculated as the number of shares added to, removed from, or routed by, the Exchange, or any combination or subset thereof, per day. ADV is calculated on a monthly basis.

<sup>9</sup> "TCV" means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.

<sup>10</sup> "OCV" means, for purposes of equities pricing, the total equity and ETF options volume that clears in the Customer range at the Options Clearing Corporation ("OCC") for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption and on any day with a scheduled early

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6 of the Act,<sup>12</sup> in general, and furthers the requirements of Section 6(b)(4),<sup>13</sup> in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its

In particular, the Exchange notes that volume-based discounts such as those currently maintained on the Exchange have been widely adopted by options exchanges and are equitable because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to (i) the value of an exchange's market quality; (ii) associated with higher levels of market activity, such as higher levels of liquidity provision and/or growth patterns; and (iii) introduction of higher volumes of orders into the price and volume discovery processes. The Exchange believes the proposal to add a new Cross-Asset Volume Tier under footnote 1 is reasonable because it provides Members an additional opportunity to receive an enhanced rate for orders that add liquidity and is a reasonable means to encourage Members to increase their liquidity on the Exchange in both equities and options. Deepening the Exchange's liquidity pool benefits investors by encouraging more price competition and providing additional opportunities to trade. The Exchange further believes the proposed threshold is commensurate with the proposed enhanced rebate and that it will encourage members to add increased liquidity to EDGX each month in both equities and options.

market close, using the definition of Customer as provided under the Exchange's fee schedule for EDGX Options.

<sup>12</sup> 15 U.S.C. 78f.

<sup>13</sup> 15 U.S.C. 78f(b)(4).

Furthermore, the Exchange believes that the proposed Cross-Asset Volume Tier is not unfairly discriminatory as it applies uniformly to all Members.

To the extent a Member participates on the Exchange but not on EDGX Options, the Exchange does believe that the proposal is still reasonable, equitably allocated and non-discriminatory with respect to such Member based on the overall benefit to the Exchange resulting from the success of EDGX Options. Particularly, the Exchange believes such success allows the Exchange to continue to provide and potentially expand its existing incentive programs to the benefit of all participants on the Exchange, whether they participate on EDGX Options or not. The proposed pricing program is also fair and equitable in that membership in EDGX Options is available to all market participants which would provide them with access to the benefits on EDGX Options provided by the proposed change, even where a member of EDGX Options is not necessarily eligible for the proposed increased rebate on the Exchange. Further, the proposed change will result in Members receiving either the same or an increased rebate than they would currently receive. The Exchange also notes that another Exchange has similar cross-asset volume tiers.<sup>14</sup>

#### 4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, the proposed change is designed to enhance competition by attracting additional liquidity and increasing the competitiveness of the Exchange. The proposed rebate tier would apply to all members uniformly based. The Exchange operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a

particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to encourage market participants to direct their order flow to the Exchange.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
