Item 1. Text of the Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² Cboe EDGX Exchange, Inc. (“EDGX” or the “Exchange”) is filing with the Securities and Exchange Commission (the “Commission”) a proposed rule change to amend the content of the Cboe One Feed under Rule 13.8(b) to identify the primary listing market’s official opening and closing price. The Exchange has designated this proposal as non-controversial and provided the Commission with the notice required by Rule 19b-4(f)(6)(iii) under the Act.³ The text of the proposed rule change is provided in Exhibit 5.

(b) Not applicable.

(c) Not applicable.

Item 2. Procedures of the Self-Regulatory Organization

(a) The Exchange’s President (or designee) pursuant to delegated authority approved the proposed rule change on June 3, 2020.

Item 3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend the content of the Cboe One Feed under Rule 13.8(b) to identify the primary listing market’s official opening and closing price effective

July 10, 2020. Additionally, the Exchange proposes to amend Rule 13.8(b) to make an administreriel change so that the Rule references Cboe rather than Bats.

The Cboe One Feed is a data feed that disseminates, on a real-time basis, the aggregate best bid and offer (“BBO”) of all displayed orders for securities traded on EDGX and its affiliated exchanges.⁴ Among other things, the Cboe One Feed also includes consolidated volume for all listed equity securities regardless of where the transaction was executed and the Cboe One Opening Price and the Cboe One Closing Price.⁵

Now, in addition to the information currently provided in the Cboe One Feed, the Exchange is proposing to include the primary listing market’s official opening and closing price for all listed equity securities as obtained directly from the securities information processors. Such information would supplement the existing consolidated volume and Cboe One Opening/Closing Price information included in the Cboe One Feed by providing additional consolidated trade information. The official opening and closing price for all listed equity securities would be disseminated via the Cboe One Feed after the Consolidated

(“EDGA”, and together with BYX, BZX, and EDGX, the “Cboe Equity Exchanges”). See Securities Exchange Act Release No. 73918 (December 23, 2014), 79 FR 78920 (December 31, 2014) (File Nos. ⁵ For securities listed on Cboe BZX Exchange, Inc. (“BZX”), the Cboe One Opening Price shall be the BZX Official Opening Price as defined in BZX Rule 11.23(a)(5) and the Cboe One Closing Price shall be the BZX Official Closing Price as defined in BZX Rule 11.23(a)(3). For securities not listed on BZX, the Cboe One Opening Price shall be the first last sale eligible trade that occurred on the Exchange or any of its affiliates after 9:30 a.m. Eastern Time, and the Cboe One Closing Price shall be the final last sale eligible trade to occur on the Exchange or any of its affiliates prior to 4:00 p.m. Eastern Time. Information Processor (“SIP”) delay period, which is currently 15 minutes.

Additionally, the Exchange proposes to amend Rule 13.8(b) to eliminate any reference to Bats and replace such reference with Cboe.

(b) Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁶

Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁷ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Exchange also believes that the proposed rule change is consistent with Section 11(A) of the Act⁸ in that it supports (1) fair competition among brokers and dealers, among exchange markets, and between exchange markets and markets other than exchange markets and (2) the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities. Furthermore, the proposed

⁸ 15 U.S.C. 78k-1.

rule change is consistent with Rule 603 of Regulation NMS,⁹ which provides that any national securities exchange that distributes information with respect to quotations for or transactions in an NMS stock do so on terms that are not unreasonably discriminatory. In adopting Regulation NMS, the Commission granted self-regulatory organizations and broker-dealers increased authority and flexibility to offer new and unique market data products to the public. It was believed that this authority would expand the amount of data available to consumers, and also spur innovation and competition for the provision of market data.

The proposed rule change is designed to promote just and equitable principles of trade and remove impediments to and perfect the mechanism of a free and open market and a national market system by identifying the primary listing market's official opening and closing price. Significant volumes typically occur in the primary listing market auctions, and the prices derived from those auctions are used as a reference price for various other instruments, including options and exchange-traded products. Therefore, official opening and closing price information would provide meaningful information to investors. The Exchange also believes this proposal is consistent with Section 6(b)(5) of the Act because it protects investors and the public interest and promotes just and equitable principles of trade by providing investors with new options for receiving such information. The Exchange also notes that the primary listing market's official opening and closing price is currently included in a competing market data products offered by the New York Stock Exchange ("NYSE").¹⁰ Therefore, the Exchange believes the proposed

rule change removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest as it would provide an additional avenue for investors to receive this information from a competing product. The proposal would not permit unfair discrimination because the primary listing market's official opening and closing price will be available to all of the Exchange's customers and market data vendors on an equivalent basis. In addition, any customer that wishes to receive this information via a different source will be able to do so.

The proposed ministerial amendment to Exchange Rule 13.8(b) is designed to remove impediments to and perfect the mechanism of a free and open market by accurately referencing Cboe rather than Bats. Further, a consistent reference to Cboe rather than Bats will help avoid potential investor confusion.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, the Exchange believes that the proposed rule change will enhance competition because it would enable the Exchange to include primary listing market's official opening and closing price as part of the Cboe One Feed, thereby enabling it to better compete with similar market data products currently offered by NYSE that include such information.¹¹ The Exchange is not the exclusive distributor of the primary listing market's official opening and closing price, and a vendor seeking to offer a similar

¹¹ Id.

product that includes this information would be able to do so on the same terms as the Exchange. Specifically, a competing vendor could receive the primary listing market's official opening and closing price from the securities information processors and include that information as part of their market data products to be disseminated to customers pursuant to the same terms and policies as the Exchange.¹² Therefore, the Exchange believes the inclusion of the primary listing market's official opening and closing price in the Cboe One Feed would not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange does not believe the proposed administerial change to Exchange Rules 13.8(b) will have any impact on competition as it is merely designed to consistently and accurately refer to Cboe rather than Bats.

Item 5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

Item 6. Extension of Time Period for Commission Action

Not applicable.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2) or Section 19(b)(7)(D)

(a) The proposed rule change is filed for immediate effectiveness pursuant to Section 19(b)(3)(A) of Act¹³ and Rule 19b-4(f)(6)¹⁴ thereunder.

¹² See CTA Consolidated Volume Display Policy with FAQ, supra note 6.

¹³ 15 U.S.C. 78s(b)(3)(A).

¹⁴ 17 CFR 240.19b-4(f)(6).

(b) The Exchange designates that the proposed rule change effects a change that (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest. Additionally, the Exchange has given the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission.

The Exchange believes that the proposed rule change does not significantly affect the protection of investors or the public interest or impose any significant burden on competition because it merely proposes to include the primary listing market's official opening and closing price in the Cboe One Feed. As discussed, Cboe is not an exclusive distributor of this information, and it is already available from a number of other sources (e.g., SIPs and NYSE BQT).¹⁵ The proposed rule change is designed to ensure that market participants that use the Cboe One Feed also have access to this important information and would therefore facilitate greater distribution of primary listing market opening and closing prices to investors. Therefore, the proposed rule change does not raise any new or unique issues not previously considered by the Commission. Additionally, the proposed ministerial change to Rule 13.8(b) will have no impact on competition because it involves no substantive change, and will benefit investors by consistently and accurately referring to Cboe rather than Bats in Exchange Rules.

¹⁵ Supra note 10.

Accordingly, the Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A) of the Act¹⁶ and paragraph (f)(6) of Rule 19b-4 thereunder.¹⁷

For the foregoing reasons, this rule filing qualifies as a “non-controversial” rule change under Rule 19b-4(f)(6), which renders the proposed rule change effective upon filing with the Commission. At any time within 60 days of the filing of this proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

The Exchange respectfully requests that the Commission waive the 30-day operative delay period after which a proposed rule change under Rule 19b-4(f)(6) becomes effective. Waiver of the operative delay would allow the Exchange to launch the proposed enhancements to the Cboe One Feed on the anticipated launch date of July 10, 2020. Waiver of the operative delay would also allow subscribers to the Cboe One Feed to receive the official opening and closing price from the primary listing market on the anticipated launch date. Furthermore, the primary listing market’s official opening and closing price is already available from a number of other sources (e.g., SIPs and NYSE BQT).¹⁸ Therefore, the Exchange believes the proposed rule change removes impediments to and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest as it would

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Amend the Content of the Cboe One Feed under Rule 13.8(b) to Identify the Primary Listing Market's Official Opening and Closing Price

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on [insert date], Cboe EDGX Exchange, Inc. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the content of the Cboe One Feed under Rule 13.8(b) to identify the primary listing market's official opening and closing price effective July 10, 2020. Additionally, the Exchange proposes to amend Rule 13.8(b) to make an ministerial change so that the Rule references Cboe rather than Bats.

The Cboe One Feed is a data feed that disseminates, on a real-time basis, the aggregate best bid and offer ("BBO") of all displayed orders for securities traded on EDGX and its affiliated exchanges.⁵ Among other things, the Cboe One Feed also includes

⁵ EDGX's affiliated exchanges are the Cboe BZX Exchange, Inc. ("BZX"), Cboe BYX Exchange, Inc. ("BYX"), and Cboe EDGA Exchange, Inc. Now, in addition to the information currently provided in the Cboe One Feed, the Exchange is proposing to include the primary listing market's official opening and closing price for all listed equity securities as obtained directly from the securities information processors. Such information would supplement the existing consolidated volume and Cboe One Opening/Closing Price information included in the Cboe One Feed by providing additional consolidated trade information. The official opening and closing price for all listed equity securities would be disseminated via the Cboe One Feed after the Consolidated Tape Association ("CTA") and Unlisted Trading Privileges ("UTP") Plan Securities Information Processor ("SIP") delay period, which is currently 15 minutes.

Additionally, the Exchange proposes to amend Rule 13.8(b) to eliminate any reference to Bats and replace such reference with Cboe.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the "Act") and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁷

See Exchange Rule 13.8(b).

⁷ 15 U.S.C. 78f(b).

Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)⁸ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Furthermore, the proposed rule change is consistent with Rule 603 of Regulation NMS,¹⁰ which provides that any national securities exchange that distributes information with respect to quotations for or transactions in an NMS stock do so on terms that are not unreasonably discriminatory. In adopting Regulation NMS, the Commission granted self-regulatory organizations and broker-dealers increased authority and flexibility to offer new and unique market data products to the public. The proposed ministerial amendment to Exchange Rule 13.8(b) is designed to remove impediments to and perfect the mechanism of a free and open market by accurately referencing Cboe rather than Bats. Further, a consistent reference to Cboe rather than Bats will help avoid potential investor confusion.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, the Exchange believes that the proposed rule change will enhance competition because it would enable the Exchange to include primary listing market's official opening and closing price as part of the Cboe One Feed, thereby enabling it to better compete with similar market data products currently offered by NYSE that include such information.¹² The Exchange is not the exclusive distributor of the primary listing market's official opening and closing price, and a vendor seeking to offer a similar product that includes this information would be able to do so on the same terms as the Exchange.
