Item 3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform (“EDGX Equity”) to modify the criteria of Add Volume Tier 2. The Exchange proposes to implement these changes effective July 1, 2022.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Exchange Act, to which market

participants may direct their order flow. Based on publicly available information¹, no single registered equities exchange has more than 16% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange in particular operates a “Maker-Taker” model whereby it pays rebates to members that add liquidity and assesses fees to those that remove liquidity. The Exchange’s Fee Schedule sets forth the standard rebates and rates applied per share for orders that provide and remove liquidity, respectively. Currently, for orders in securities priced at or above \$1.00, the Exchange provides a standard rebate of \$0.00160 per share for orders that add liquidity and assesses a fee of \$0.0030 per share for orders that remove liquidity. For orders in securities priced below \$1.00, the Exchange provides a standard rebate of \$0.00009 per share for orders that add liquidity and assesses a fee of 0.30% of the total dollar value for orders that remove liquidity. Additionally, in response to the competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria.

Add Volume Tier 2

Under footnote 1 of the Fee Schedule, the Exchange currently offers various Add/Remove Volume Tiers. In particular, the Exchange offers four Add Volume Tiers

¹ See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (June 27, 2022), available at https://www.cboe.com/us/equities/market_statistics/.

that each provide an enhanced rebate for Members' qualifying orders yielding fee codes B,² V,³ Y,⁴ 3⁵ or 4⁶, where a Member reaches certain add volume-based criteria.

Specifically, Add Volume Tier 2 offers an enhanced rebate of \$0.0027 per share for qualifying orders (i.e., yielding fee codes B, V, Y, 3 or 4) where a Member (i) adds an ADV⁷ greater than or equal to 0.28% of the TCV⁸; or (ii) a Member adds an ADV greater than or equal to 30,000,000 shares. The Exchange proposes to amend the criteria of Add Volume Tier 2 to offer an enhanced rebate of \$0.0027 per share for qualifying orders (i.e., yielding fee codes B, V, Y, 3 or 4) where a Member (i) adds an ADV greater than or equal to 0.22% (instead of 0.28%) of the TCV; or (ii) a Member adds an ADV greater than or equal to 25,000,000 shares (instead of 30,000,000 shares).

The Exchange believes that the proposed lower thresholds in Add Volume Tier 2 will incentivize market participants to provide additional displayed liquidity on the Exchange, thereby contributing to a deeper and more liquid market, which benefits all

² Orders yielding Fee Code "B" are orders adding liquidity to EDGX (Tape B).

³ Orders yielding Fee Code "V" are orders adding liquidity to EDGX (Tape A).

⁴ Orders yielding Fee Code "Y" are orders adding liquidity to EDGX (Tape C).

⁵ Orders yielding Fee Code "3" are orders adding liquidity to EDGX in the pre and post market (Tapes A or C).

⁶ Orders yielding Fee Code "4" are orders adding liquidity to EDGX in the pre and post market (Tape B).

⁷ "ADV" means average daily volume calculated as the number of shares added to, removed from, or routed by, the Exchange, or any combination or subset thereof, per day. ADV is calculated on a monthly basis.

market participants and provides greater execution opportunities on the Exchange. The Exchange is not proposing any changes to Add Volume Tier 1 or Add Volume Tier 3.

(b) Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.⁹

Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹⁰ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹¹ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. The proposed rule change reflects a competitive pricing structure designed to incentivize market participants

¹⁰ 15 U.S.C. 78f(b)(5).

¹¹ Id.

to direct their order flow to the Exchange, which the Exchange believes would enhance market quality to the benefit of all Members.

In particular, the Exchange believes that the proposed changes to Add Volume Tier 2 are reasonable, equitable and not unfairly discriminatory because the tier, as modified, continues to be available to all Members and provide Members an opportunity to receive an enhanced rebate. As noted above, the Exchange operates in a highly competitive market. The Exchange is only one of 16 equity venues to which market participants may direct their order flow, and it represents a small percentage of the overall market. It is also only one of several maker-taker exchanges. Competing equity exchanges offer similar rates and tiered pricing structures to that of the Exchange, including schedules of rebates and fees that apply based upon members achieving certain volume thresholds. Specifically, the Exchange notes that relative volume-based incentives and discounts have been widely adopted by exchanges¹², including the Exchange¹³, and are reasonable, equitable and non-discriminatory because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to (i) the value to an exchange's market quality and (ii) associated higher levels of market activity, such as higher levels or liquidity provision and/or growth thresholds, as well as assess similar fees or rebates for similar types of orders, to that of the Exchange.

Specifically, the Exchange believes the proposed criteria changes for Add Volume Tier 2 are reasonable because the tier will continue to provide Members with an

¹² See BZX Equities Fee Schedule, Footnote 1, Add/Remove Volume Tiers.

¹³ See EDGX Equities Fee Schedule, Footnote 1, Add/Remove Volume Tiers.

opportunity to receive an enhanced rebate or reduced fee by encouraging Members to increase their order flow to the Exchange. In particular, the Exchange believes that the changes to Add Volume Tier 2 will provide reasonable means for Members to receive an enhanced rebate for adding liquidity on the Exchange. The Exchange also believes that the current enhanced rebate for Add Volume Tier 2 continues to be commensurate with the proposed criteria. That is, the rebate reasonably reflects the difficulty in achieving the applicable criteria as amended. Furthermore, the Exchange believes that the proposed lower thresholds in Add Volume Tier 2 will incentivize market participants to provide additional displayed liquidity on the Exchange, thereby contributing to a deeper and more liquid market, which benefits all market participants and provides greater execution opportunities on the Exchange.

The Exchange believes the proposed changes to Add Volume Tier 2 represent an equitable allocation of rebates and fees and are not unfairly discriminatory because all Members are eligible for those tiers and would have the opportunity to meet a tier's criteria and would receive the proposed enhanced rebate or reduced fee if such criteria is met. Without having a view of activity on other market and off-exchange venues, the Exchange has no way of knowing whether this proposed rule change would definitely result in any Members qualifying for the proposed tiers. While the Exchange has no way of predicting with certainty how the proposed tiers will impact Member activity, the Exchange anticipates that two Members will be able to satisfy the criteria proposed for Add Volume Tier 2. The Exchange also notes that the proposed changes will not adversely impact any Member's ability to qualify for other reduced fee or enhanced rebated tiers. Should a Member not meet the proposed criteria under the modified tier, the

Member will merely not receive that corresponding enhanced rebate or reduced fee. The Exchange believes that the proposed changes to Add Volume Tier 2 will benefit all market participants by incentivizing continuous liquidity and, thus, deeper more liquid markets as well as increased execution opportunities. Particularly, the proposal is designed to incentivize liquidity, which further contributes to a deeper, more liquid market and provide even more execution opportunities for active market participants at improved prices. This overall increase in activity deepens the Exchange's liquidity pool, offers additional cost savings, supports the quality of price discovery, promotes market transparency and improves market quality, for all investors.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, as discussed above, the Exchange believes that the proposed change would encourage the submission of additional order flow to a public exchange, thereby promoting market depth, execution incentives and enhanced execution opportunities, as well as price discovery and transparency for all Members. As a result, the Exchange believes that the proposed change furthers the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."

The Exchange believes the proposed rule change does not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. Particularly, the proposed tier changes will apply to all Members equally in that all Members will continue to be eligible for Add Volume Tier 2, have a

reasonable opportunity to meet the tier's criteria and will receive the enhanced rebate on their qualifying orders if such criteria are met.

The Exchange does not believe the proposed changes burden competition, but rather, enhance competition as they are intended to increase the competitiveness of EDGX by amending existing pricing incentives in order to attract order flow and incentivize participants to increase their participation on the Exchange, providing for additional execution opportunities for market participants and improved price transparency. Greater overall order flow, trading opportunities, and pricing transparency benefit all market participants on the Exchange by enhancing market quality and continuing to encourage Members to send orders, thereby contributing towards a robust and well-balanced market ecosystem.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their order flow, including other equities exchanges, off-exchange venues, and alternative trading systems. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single equities exchange has more than 16% of the market share¹⁴. Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the

¹⁴ Supra note 1.

Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁵ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’... As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’...”¹⁶

[Release No. 34- ; File No. SR-CboeEDGX-2022-030]

[Insert date]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Amend its Fee Schedule

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on [insert date], Cboe EDGX Exchange, Inc. (the “Exchange” or “EDGX”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the “Exchange” or “EDGX”) proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange’s website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

² 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform ("EDGX Equity") to modify the criteria of Add Volume Tier 2. The Exchange proposes to implement these changes effective July 1, 2022.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Exchange Act, to which market participants may direct their order flow. Based on publicly available information³, no single registered equities exchange has more than 16% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses

³ See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (June 27, 2022), available at https://www.cboe.com/us/equities/market_statistics/.

significant pricing power in the execution of order flow. The Exchange in particular operates a “Maker-Taker” model whereby it pays rebates to members that add liquidity and assesses fees to those that remove liquidity. The Exchange’s Fee Schedule sets forth the standard rebates and rates applied per share for orders that provide and remove liquidity, respectively. Currently, for orders in securities priced at or above \$1.00, the Exchange provides a standard rebate of \$0.00160 per share for orders that add liquidity and assesses a fee of \$0.0030 per share for orders that remove liquidity. For orders in securities priced below \$1.00, the Exchange provides a standard rebate of \$0.00009 per share for orders that add liquidity and assesses a fee of 0.30% of the total dollar value for orders that remove liquidity. Additionally, in response to the competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria.

Add Volume Tier 2

Under footnote 1 of the Fee Schedule, the Exchange currently offers various Add/Remove Volume Tiers. In particular, the Exchange offers four Add Volume Tiers that each provide an enhanced rebate for Members’ qualifying orders yielding fee codes

B,⁴ V,⁵ Y,⁶ 3⁷ or 4⁸, where a Member reaches certain add volume-based criteria.

Specifically, Add Volume Tier 2 offers an enhanced rebate of \$0.0027 per share for qualifying orders (i.e., yielding fee codes B, V, Y, 3 or 4) where a Member (i) adds an ADV⁹ greater than or equal to 0.28% of the TCV¹⁰; or (ii) a Member adds an ADV greater than or equal to 30,000,000 shares. The Exchange proposes to amend the criteria of Add Volume Tier 2 to offer an enhanced rebate of \$0.0027 per share for qualifying orders (i.e., yielding fee codes B, V, Y, 3 or 4) where a Member (i) adds an ADV greater than or equal to 0.22% (instead of 0.28%) of the TCV; or (ii) a Member adds an ADV greater than or equal to 25,000,000 shares (instead of 30,000,000 shares).

The Exchange believes that the proposed lower thresholds in Add Volume Tier 2 will incentivize market participants to provide additional displayed liquidity on the Exchange, thereby contributing to a deeper and more liquid market, which benefits all market participants and provides greater execution opportunities on the Exchange. The Exchange is not proposing any changes to Add Volume Tier 1 or Add Volume Tier 3.

⁴ Orders yielding Fee Code “B” are orders adding liquidity to EDGX (Tape B).

⁵ Orders yielding Fee Code “V” are orders adding liquidity to EDGX (Tape A).

⁶ Orders yielding Fee Code “Y” are orders adding liquidity to EDGX (Tape C).

⁷ Orders yielding Fee Code “3” are orders adding liquidity to EDGX in the pre and post market (Tapes A or C).

⁸ Orders yielding Fee Code “4” are orders adding liquidity to EDGX in the pre and post market (Tape B).

⁹ “ADV” means average daily volume calculated as the number of shares added to, removed from, or routed by, the Exchange, or any combination or subset thereof, per day. ADV is calculated on a monthly basis.

¹⁰ “TCV” means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.¹¹ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹² requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)¹³ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. The proposed rule change reflects a competitive pricing structure designed to incentivize market participants to direct their order flow to the Exchange, which the Exchange believes would enhance market quality to the benefit of all Members.

¹¹ 15 U.S.C. 78f(b).

¹² 15 U.S.C. 78f(b)(5).

¹³ Id.

In particular, the Exchange believes that the proposed changes to Add Volume Tier 2 are reasonable, equitable and not unfairly discriminatory because the tier, as modified, continues to be available to all Members and provide Members an opportunity to receive an enhanced rebate. As noted above, the Exchange operates in a highly competitive market. The Exchange is only one of 16 equity venues to which market participants may direct their order flow, and it represents a small percentage of the overall market. It is also only one of several maker-taker exchanges. Competing equity exchanges offer similar rates and tiered pricing structures to that of the Exchange, including schedules of rebates and fees that apply based upon members achieving certain volume thresholds. Specifically, the Exchange notes that relative volume-based incentives and discounts have been widely adopted by exchanges¹⁴, including the Exchange¹⁵, and are reasonable, equitable and non-discriminatory because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to (i) the value to an exchange's market quality and (ii) associated higher levels of market activity, such as higher levels or liquidity provision and/or growth thresholds, as well as assess similar fees or rebates for similar types of orders, to that of the Exchange.

Specifically, the Exchange believes the proposed criteria changes for Add Volume Tier 2 are reasonable because the tier will continue to provide Members with an opportunity to receive an enhanced rebate or reduced fee by encouraging Members to increase their order flow to the Exchange. In particular, the Exchange believes that the

¹⁵ See EDGX Equities Fee Schedule, Footnote 1, Add/Remove Volume Tiers.

changes to Add Volume Tier 2 will provide reasonable means for Members to receive an enhanced rebate for adding liquidity on the Exchange. The Exchange also believes that the current enhanced rebate for Add Volume Tier 2 continues to be commensurate with the proposed criteria. That is, the rebate reasonably reflects the difficulty in achieving the applicable criteria as amended. Furthermore, the Exchange believes that the proposed lower thresholds in Add Volume Tier 2 will incentivize market participants to provide additional displayed liquidity on the Exchange, thereby contributing to a deeper and more liquid market, which benefits all market participants and provides greater execution opportunities on the Exchange.

The Exchange believes the proposed changes to Add Volume Tier 2 represent an equitable allocation of rebates and fees and are not unfairly discriminatory because all Members are eligible for those tiers and would have the opportunity to meet a tier's criteria and would receive the proposed enhanced rebate or reduced fee if such criteria is met. Without having a view of activity on other market and off-exchange venues, the Exchange has no way of knowing whether this proposed rule change would definitely result in any Members qualifying for the proposed tiers. While the Exchange has no way of predicting with certainty how the proposed tiers will impact Member activity, the Exchange anticipates that two Members will be able to satisfy the criteria proposed for Add Volume Tier 2. The Exchange also notes that the proposed changes will not adversely impact any Member's ability to qualify for other reduced fee or enhanced rebated tiers. Should a Member not meet the proposed criteria under the modified tier, the Member will merely not receive that corresponding enhanced rebate or reduced fee. The Exchange believes that the proposed changes to Add Volume Tier 2 will benefit all

market participants by incentivizing continuous liquidity and, thus, deeper more liquid markets as well as increased execution opportunities. Particularly, the proposal is designed to incentivize liquidity, which further contributes to a deeper, more liquid market and provide even more execution opportunities for active market participants at improved prices. This overall increase in activity deepens the Exchange's liquidity pool, offers additional cost savings, supports the quality of price discovery, promotes market transparency and improves market quality, for all investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, as discussed above, the Exchange believes that the proposed change would encourage the submission of additional order flow to a public exchange, thereby promoting market depth, execution incentives and enhanced execution opportunities, as well as price discovery and transparency for all Members. As a result, the Exchange believes that the proposed change furthers the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."

The Exchange believes the proposed rule change does not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. Particularly, the proposed tier changes will apply to all Members equally in that all Members will continue to be eligible for Add Volume Tier 2, have a reasonable opportunity to meet the tier's criteria and will receive the enhanced rebate on their qualifying orders if such criteria are met.

The Exchange does not believe the proposed changes burden competition, but rather, enhance competition as they are intended to increase the competitiveness of EDGX by amending existing pricing incentives in order to attract order flow and incentivize participants to increase their participation on the Exchange, providing for additional execution opportunities for market participants and improved price transparency. Greater overall order flow, trading opportunities, and pricing transparency benefit all market participants on the Exchange by enhancing market quality and continuing to encourage Members to send orders, thereby contributing towards a robust and well-balanced market ecosystem.

Next, the Exchange believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their order flow, including other equities exchanges, off-exchange venues, and alternative trading systems. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single equities exchange has more than 16% of the market share¹⁶. Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets.

¹⁶ Supra note 3.

Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁷ The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’... As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’...”.¹⁸

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁹ and paragraph (f) of Rule 19b-4²⁰ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
