Such partial amendment shall be clearly identified and marked to show deletions and additions.

Item 1. Text of the Proposed Rule Change

(a) Chicago Board Options Exchange, Incorporated (the “Exchange” or “CBOE”) proposes to amend Rule 5.3.06 to allow the listing of options overlying Exchange-Traded Fund Shares (“ETFs”) that are listed pursuant to generic listing standards on equities exchanges for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. The text of the proposed rule change is attached as Exhibit 5.

(c) Not applicable.

Item 2. Procedures of the Self-Regulatory Organization

(a) The Exchange’s President pursuant to delegated authority approved the proposed rule change on May 26, 2015.

(b) Please refer questions and comments on the proposed rule change to Joanne Moffic-Silver, General Counsel, CBOE, 400 South LaSalle, Chicago, IL 60605, (312) 786-7462 or Jenny Golding, (312) 786-7466.

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend Rule 5.3.06 to allow the listing of options overlying ETFs (referred to as “Units” in Rule 5.3.06) that are listed pursuant to generic listing standards on equities exchanges for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance sharing agreement (“comprehensive surveillance agreement” or “CSSA”) is

not required.¹ This proposal will enable the Exchange to list and trade options on ETFs without a CSSA provided that the ETF is listed on an equities exchange pursuant to the generic listings standards that do not require a CSSA pursuant to Rule 19b-4(e)² of the Exchange Act. Rule 19b-4(e) provides that the listing and trading of a new derivative securities product by a self-regulatory organization (“SRO”) shall not be deemed a proposed rule change, pursuant to paragraph (c)(1) of Rule 19b-4, if the Commission has approved, pursuant to Section 19(b) of the Exchange Act, the SRO’s trading rules, procedures and listing standards for the product class that would include the new derivatives securities product, and the SRO has a surveillance program for the product class.³ In other words, the proposal will amend the listing standards to allow the Exchange to list and trade options on ETFs based on international or global indexes to a similar degree that they are allowed to be listed on several equities exchanges.⁴

Exchange Traded Funds

The Exchange allows for the listing and trading of options on ETFs (referred to as “Units” in Rule 5.3.06). Rule 5.3.06(v)(A)-(C) provide the listings standards for options on ETFs with non-U.S. component securities, such as ETFs based on international or global indexes. Rule 5.3.06(v)(A) requires that any non-U.S. component securities of an index or portfolio of securities on which the Units are based that are not subject to

² 17 CFR 240.19b-4(e).

³ When relying on Rule 19b-4(e), the SRO must submit Form 19b-4(e) to the Commission within five business days after the SRO begins trading the new derivative securities products. See Securities Exchange Act Release No. 40761 (December 8, 1998), 63 FR 70952 (December 22, 1998).

comprehensive surveillance agreements do not in the aggregate represent more than 50% of the weight of the index or portfolio. Rule 5.3.06(v)(B) requires that component securities of an index or portfolio of securities on which the Units are based for which the primary market is in any one country that is not subject to a comprehensive surveillance agreement do not represent 20% or more of the weight of the index. Rule 5.3.06(v)(C) requires that component securities of an index or portfolio of securities on which the Units are based for which the primary market is in any two countries that are not subject to comprehensive surveillance agreements do not represent 33% or more of the weight of the index.

Generic Listing Standards for Exchange-Traded Funds

The Exchange notes that the Commission has previously approved generic listing standards pursuant to Rule 19b-4(e)⁵ of the Exchange Act for ETFs based on indexes that consist of stocks listed on U.S. exchanges.⁶ In general, the criteria for the underlying component securities in the international and global indexes are similar to those for the domestic indexes, but with modifications as appropriate for the issues and risks associated with non-U.S. securities.

In addition, the Commission has previously approved the listing and trading of ETFs based on international indexes—those based on non-U.S. component stocks—as well as global indexes—those based on non-U.S. and U.S. component stocks.⁷

⁵ 17 CFR 240.19b-4(e).

⁶ See Commentary .03 to Amex Rule 1000 and Commentary .02 to Amex Rule 1000A. See also Securities Exchange Act Release No. 42787 (May 15, 2000), 65 FR 33598 (May 24, 2000).

⁷ See e.g., Securities Exchange Act Release Nos. 50189 (August 12, 2004), 69 FR 51723 (August 20, 2004) (approving the listing and trading of certain Vanguard International Equity Index Funds); 44700 (August 14, 2001), 66 FR 43927 (August 21, 2001) (approving the listing and trading of series of the iShares Trust based on certain S&P global indexes).

In approving ETFs for equities exchange trading, the Commission thoroughly considered the structure of the ETFs, their usefulness to investors and to the markets, and SRO rules that govern their trading. The Exchange believes that allowing the listing of options overlying ETFs that are listed pursuant to the generic listing standards on equities exchanges for ETFs based on international and global indexes and applying Rule 19b-4(e)⁸ should fulfill the intended objective of that Rule by allowing options on those ETFs that have satisfied the generic listing standards to commence trading, without the need for the public comment period and Commission approval. The proposed rule has the potential to reduce the time frame for bringing options on ETFs to market, thereby reducing the burdens on issuers and other market participants. The failure of a particular ETF to comply with the generic listing standards under Rule 19b-4(e)⁹ would not, however, preclude the Exchange from submitting a separate filing pursuant to Section 19(b)(2),¹⁰ requesting Commission approval to list and trade options on a particular ETF.

Requirements for Listing and Trading Options Overlying ETFs Based on International and Global Indexes

Options on ETFs listed pursuant to these generic standards for international and global indexes would be traded, in all other respects, under the Exchange's existing trading rules and procedures that apply to options on ETFs and would be covered under the Exchange's surveillance program for options on ETFs. Pursuant to the proposed rule, the Exchange may list and trade options on an ETF without a CSSA provided that the ETF is listed pursuant to generic listing standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a

⁹ 17 CFR 240.19b-4(e).

¹⁰ 15 U.S.C. 78s(b)(2).

comprehensive surveillance agreement is not required. The Exchange believes that these generic listing standards are intended to ensure that stocks with substantial market capitalization and trading volume account for a substantial portion of the weight of an index or portfolio. The Exchange believes that this proposed listing standard for options on ETFs is reasonable for international and global indexes, and, when applied in conjunction with the other listing requirements,¹¹ will result in options overlying ETFs that are sufficiently broad-based in scope and not readily susceptible to manipulation. The Exchange also believes that allowing the Exchange to list options overlying ETFs that are listed on equities exchanges pursuant to generic standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a CSSA is not required, will result in options overlying ETFs that are adequately diversified in weighting for any single security or small group of securities to significantly reduce concerns that trading in options overlying ETFs based on international or global indexes could become a surrogate for trading in unregistered securities.

The Exchange believes that ETFs based on international and global indexes that have been listed pursuant to the generic standards are sufficiently broad-based enough as to make options overlying such ETFs not susceptible instruments for manipulation. The Exchange believes that the threat of manipulation is sufficiently mitigated for underlying ETFs that have been listed on equities exchanges pursuant to generic listing standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required and

¹¹ All of the other listing criteria under the Exchange's rules will continue to apply to any options listed pursuant to the proposed rule change.

for the overlying options, that the Exchange does not see the need for CSSA to be in place before listing and trading options on such ETFs. The Exchange notes that its proposal does not replace the need for a CSSA as provided in the current rule. The provisions of the current rule, including the need for a CSSA, remain materially unchanged in the proposed rule and will continue to apply to options on ETFs that are not listed on an equities exchange pursuant to generic listing standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. Instead, the proposed rule adds an additional listing mechanism for certain qualifying options on ETFs to be listed on the Exchange.

Proposed Non-Substantive Reorganizational Changes

The Exchange proposes to take this opportunity to reorganize the provisions set forth in Rule 5.3.06. As background, the Exchange states that there are three general areas addressed in Rule 5.3.06. First, current subparagraphs (i) to (v) identify general and specific types of ETFs eligible for options listing. The Exchange is proposing to maintain this organization. Second, subparagraph (v)(E) sets forth the two ways in which an ETF may meet the Exchange's initial listing criteria. Third, subparagraphs (A) – (D) and (F) set forth additional initial listing criteria for ETFs based on the particular type of ETF. The Exchange believes that reorganizing the presentation of these paragraphs would make Rule 5.3.06 clearer and more user-friendly. As a result, CBOE proposes to move the contents of current subparagraph (v)(E) to be set forth as new paragraphs (B)(i) and (ii), after the general and specific types of ETFs eligible for options listing are identified. The Exchange believes that this placement would make it clearer that this

provision applies to all ETFs. Finally, the Exchange proposes to add new subparagraph lettering to existing rule text and to re-letter existing rule text. These these are technical organizational changes and are not substantive changes.

CBOE also proposes to amend Rule 5.4.08 by updating internal cross-references to Rule 5.3.06 to reflect renumbering changing being proposed in this current filing to Rule 5.3.06. These proposed changes to Rule 5.4.08 are technical and non-substantive.

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹² in general, and furthers the objectives of Section 6(b)(5) of the Act,¹³ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest. In particular, the proposed rules have the potential to reduce the time frame for bringing options on ETFs to market, thereby reducing the burdens on issuers and other market participants. The Exchange also believes enabling the listing and trading of options on ETFs pursuant to this new listing standard will benefit investors by providing them with valuable risk management tools. The Exchange notes that its proposal does not replace the need for a CSSA as provided in the current rule. The provisions of the current rule, including the need for a comprehensive surveillance sharing agreement, remain materially unchanged in the proposed rule and will continue to apply to options on ETFs that are not listed on an

¹² 15 U.S.C. 78f(b).

¹³ 15 U.S.C. 78f(b).

equities exchange pursuant to generic listing standards for series of portfolio depository receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. Instead, the proposed rule adds an additional listing mechanism for certain qualifying options on ETFs to be listed on the Exchange in a manner that is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that the proposed non-substantive reorganizational changes to Rule 5.3.06 would be beneficial to market participants and users of CBOE's Rulebook because these proposed changes would generally result in a clearer and more user-friendly presentment of the provisions set forth in CBOE's Rulebook.

Item 4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the proposed rule change is a competitive change that is substantially similar to recent rule changes filed by the MIAX Options Exchange ("MIAX"), NASDAQ OMX PHLX, LLC ("Phlx") and International Securities Exchange, LLC ("ISE").¹⁴ Furthermore, the Exchange believes this proposed rule change will benefit investors by providing additional methods to trade options on ETFs, and by providing them with valuable risk management tools. Specifically, the Exchange

¹⁴ See Securities Exchange Act Release Nos. 74509 (March 13, 2015), 80 FR 14425 (March 19, 2015) (SR-MIAX-2015-04); 74553 (March 20, 2015), 80 FR 16072 (March 26, 2015) (SR-Phlx-2015-27) and 74832 (April 29, 2015), 80 FR 25738 (May 5, 2015) (SR-ISE-2015-16).

believes that market participants on the Exchange would benefit from the introduction and availability of options on ETFs in a manner that is similar to equities exchanges and will provide investors with a venue on which to trade options on these products. For all the reasons stated above, the Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, and believes the proposed change will enhance competition.

Item 5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

Item 6. Extension of Time Period for Commission Action

Not applicable.

Item 7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2) or Section 19(b)(7)(D)

(a) The proposed rule change is filed for immediate effectiveness pursuant to Section 19(b)(3)(A) of Act¹⁵ and Rule 19b-4(f)(6)¹⁶ thereunder.

(b) The Exchange designates that the proposed rule change effects a change that (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Securities and Exchange Commission (the “Commission”) may designate if consistent with the protection of investors and the public interest.

The Exchange believes that the proposed rule change does not significantly affect

¹⁵ 15 U.S.C. 78s(b)(3)(A).

¹⁶ 17 CFR 240.19b-4(f)(6).

the protection of investors or the public interest because this proposal allows the Exchange, similarly to other markets, to list and trade options overlying ETFs that are listed pursuant to generic listing standards on equities exchanges for portfolio depositary receipts and index fund shares based on international or global indexes. This is beneficial to the Exchange and its traders, investors, and market participants in general. The Exchange believes that the proposal is pro-competitive because the Exchange would be able to provide traders, investors, and market participants the opportunity to more effectively tailor their trading, investing and hedging needs, consistent with listing rules already adopted by other options exchanges. As such, the Exchange believes the proposed rule change does not raise any new or unique regulatory issues not already considered by the Commission and qualifies for immediate effectiveness as a “noncontroversial” rule change under Rule 19b-4(f)(6) of the Act.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the regular operative delay. Waiver of the operative delay is consistent with the protection of investors and the public interest because it will allow the CBOE to immediately list options on certain ETFs that are currently permitted to be listed by MIAX, Phlx and ISE without a CSSA. Waiver of the operative delay would allow the Exchange to list and trade certain ETF options on the same bases as other options markets, which would be beneficial to market participants and would help to eliminate the potential for investor confusion. Furthermore, Rule 19b-4(f)(6) requires a self-

regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

At any time within 60 days of the filing of this proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

(c) Not applicable.

(d) Not applicable.

Item 8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

As described above, the proposed change is based upon recent filings and existing rules of MIAX, Phlx and ISE.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 5.3.06 to allow the listing of options overlying ETFs (referred to as "Units" in Rule 5.3.06) that are listed pursuant to generic listing standards on equities exchanges for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance sharing agreement ("comprehensive surveillance agreement" or "CSSA") is not required.⁵ This proposal will enable the Exchange to list and trade options on ETFs without a CSSA provided that the ETF is listed on an equities exchange pursuant to the generic listings standards that do not require a CSSA pursuant to Rule 19b-4(e)⁶ of the Exchange Act. Rule 19b-4(e) provides that the listing and trading of a new derivative securities product by a self-regulatory organization ("SRO") shall not be deemed a proposed rule change, pursuant to paragraph (c)(1) of Rule 19b-4, if the Commission has

approved, pursuant to Section 19(b) of the Exchange Act, the SRO's trading rules, procedures and listing standards for the product class that would include the new derivatives securities product, and the SRO has a surveillance program for the product class.⁷ In other words, the proposal will amend the listing standards to allow the Exchange to list and trade options on ETFs based on international or global indexes to a similar degree that they are allowed to be listed on several equities exchanges.⁸

Exchange Traded Funds

The Exchange allows for the listing and trading of options on ETFs (referred to as "Units" in Rule 5.3.06). Rule 5.3.06(v)(A)-(C) provide the listings standards for options on ETFs with non-U.S. component securities, such as ETFs based on international or global indexes. Rule 5.3.06(v)(A) requires that any non-U.S. component securities of an index or portfolio of securities on which the Units are based that are not subject to comprehensive surveillance agreements do not in the aggregate represent more than 50% of the weight of the index or portfolio. Rule 5.3.06(v)(B) requires that component securities of an index or portfolio of securities on which the Units are based for which the primary market is in any one country that is not subject to a comprehensive surveillance agreement do not represent 20% or more of the weight of the index. Rule 5.3.06(v)(C) requires that component securities of an index or portfolio of securities on which the Units are based for which the primary market is in any two countries that are not subject

Generic Listing Standards for Exchange-Traded Funds

The Exchange notes that the Commission has previously approved generic listing standards pursuant to Rule 19b-4(e)⁹ of the Exchange Act for ETFs based on indexes that consist of stocks listed on U.S. exchanges.¹⁰ In general, the criteria for the underlying component securities in the international and global indexes are similar to those for the domestic indexes, but with modifications as appropriate for the issues and risks associated with non-U.S. securities.

In addition, the Commission has previously approved the listing and trading of ETFs based on international indexes—those based on non-U.S. component stocks—as well as global indexes—those based on non-U.S. and U.S. component stocks.¹¹

In approving ETFs for equities exchange trading, the Commission thoroughly considered the structure of the ETFs, their usefulness to investors and to the markets, and SRO rules that govern their trading. The Exchange believes that allowing the listing of options overlying ETFs that are listed pursuant to the generic listing standards on equities exchanges for ETFs based on international and global indexes and applying Rule 19b-4(e)¹² should fulfill the intended objective of that Rule by allowing options on those ETFs that have satisfied the generic listing standards to commence trading, without the need for the public comment period and Commission approval. The proposed rule has the

potential to reduce the time frame for bringing options on ETFs to market, thereby reducing the burdens on issuers and other market participants. The failure of a particular ETF to comply with the generic listing standards under Rule 19b-4(e)¹³ would not, however, preclude the Exchange from submitting a separate filing pursuant to Section 19(b)(2),¹⁴ requesting Commission approval to list and trade options on a particular ETF.

Requirements for Listing and Trading Options Overlying ETFs Based on International and Global Indexes

Options on ETFs listed pursuant to these generic standards for international and global indexes would be traded, in all other respects, under the Exchange's existing trading rules and procedures that apply to options on ETFs and would be covered under the Exchange's surveillance program for options on ETFs. Pursuant to the proposed rule, the Exchange may list and trade options on an ETF without a CSSA provided that the ETF is listed pursuant to generic listing standards for series of portfolio depository receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. The Exchange believes that these generic listing standards are intended to ensure that stocks with substantial market capitalization and trading volume account for a substantial portion of the weight of an index or portfolio. The Exchange believes that this proposed listing standard for options on ETFs is reasonable for international and global indexes, and, when applied in conjunction with the other listing requirements,¹⁵ will result in options overlying ETFs that are sufficiently broad-based in scope and not readily susceptible to manipulation. The Exchange also believes that allowing the Exchange to list options overlying ETFs

¹³ 17 CFR 240.19b-4(e).

¹⁴ 15 U.S.C. 78s(b)(2).

¹⁵ All of the other listing criteria under the Exchange's rules will continue to apply to any options listed pursuant to the proposed rule change.

that are listed on equities exchanges pursuant to generic standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a CSSA is not required, will result in options overlying ETFs that are adequately diversified in weighting for any single security or small group of securities to significantly reduce concerns that trading in options overlying ETFs based on international or global indexes could become a surrogate for trading in unregistered securities.

The Exchange believes that ETFs based on international and global indexes that have been listed pursuant to the generic standards are sufficiently broad-based enough as to make options overlying such ETFs not susceptible instruments for manipulation. The Exchange believes that the threat of manipulation is sufficiently mitigated for underlying ETFs that have been listed on equities exchanges pursuant to generic listing standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required and for the overlying options, that the Exchange does not see the need for CSSA to be in place before listing and trading options on such ETFs. The Exchange notes that its proposal does not replace the need for a CSSA as provided in the current rule. The provisions of the current rule, including the need for a CSSA, remain materially unchanged in the proposed rule and will continue to apply to options on ETFs that are not listed on an equities exchange pursuant to generic listing standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. Instead, the proposed

rule adds an additional listing mechanism for certain qualifying options on ETFs to be listed on the Exchange.

Proposed Non-Substantive Reorganizational Changes

The Exchange proposes to take this opportunity to reorganize the provisions set forth in Rule 5.3.06. As background, the Exchange states that there are three general areas addressed in Rule 5.3.06. First, current subparagraphs (i) to (v) identify general and specific types of ETFs eligible for options listing. The Exchange is proposing to maintain this organization. Second, subparagraph (v)(E) sets forth the two ways in which an ETF may meet the Exchange's initial listing criteria. Third, subparagraphs (A) – (D) and (F) set forth additional initial listing criteria for ETFs based on the particular type of ETF. The Exchange believes that reorganizing the presentation of these paragraphs would make Rule 5.3.06 clearer and more user-friendly. As a result, CBOE proposes to move the contents of current subparagraph (v)(E) to be set forth as new paragraphs (B)(i) and (ii), after the general and specific types of ETFs eligible for options listing are identified. The Exchange believes that this placement would make it clearer that this provision applies to all ETFs. Finally, the Exchange proposes to add new subparagraph lettering to existing rule text and to re-letter existing rule text. These these are technical organizational changes and are not substantive changes.

CBOE also proposes to amend Rule 5.4.08 by updating internal cross-references to Rule 5.3.06 to reflect renumbering changing being proposed in this current filing to Rule 5.3.06. These proposed changes to Rule 5.4.08 are technical and non-substantive.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁶ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁷ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

In particular, the proposed rules have the potential to reduce the time frame for bringing options on ETFs to market, thereby reducing the burdens on issuers and other market participants. The Exchange also believes enabling the listing and trading of options on ETFs pursuant to this new listing standard will benefit investors by providing them with valuable risk management tools. The Exchange notes that its proposal does not replace the need for a CSSA as provided in the current rule. The provisions of the current rule, including the need for a comprehensive surveillance sharing agreement, remain materially unchanged in the proposed rule and will continue to apply to options on ETFs that are not listed on an equities exchange pursuant to generic listing standards for series of portfolio depositary receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required. Instead, the proposed rule adds an additional listing mechanism for certain qualifying options on ETFs to be listed on the Exchange in a manner that is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles

of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that the proposed non-substantive reorganizational changes to Rule 5.3.06 would be beneficial to market participants and users of CBOE's Rulebook because these proposed changes would generally result in a clearer and more user-friendly presentation of the provisions set forth in CBOE's Rulebook.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the proposed rule change is a competitive change that is substantially similar to recent rule changes filed by the MIAX Options Exchange ("MIAX"), NASDAQ OMX PHLX, LLC ("Phlx") and International Securities Exchange, LLC ("ISE").¹⁸ Furthermore, the Exchange believes this proposed rule change will benefit investors by providing additional methods to trade options on ETFs, and by providing them with valuable risk management tools. Specifically, the Exchange believes that market participants on the Exchange would benefit from the introduction and availability of options on ETFs in a manner that is similar to equities exchanges and will provide investors with a venue on which to trade options on these products. For all the reasons stated above, the Exchange does not believe that the proposed rule change

will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, and believes the proposed change will enhance competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not:

- A. significantly affect the protection of investors or the public interest;
- B. impose any significant burden on competition; and
- C. become operative for 30 days from the date on which it was filed, or such

shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁹ and Rule 19b-4(f)(6)²⁰ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with

Rule 5.3 Criteria for Underlying Securities

No changes.

...Interpretations and Policies

.01 - .05 No changes.

.06 (A) Securities deemed appropriate for options trading shall include shares or other securities ("Units") that are traded on a national securities exchange and are defined as an "NMS stock" under Rule 600 of Regulation NMS, and that

(i) represent interests in registered investment companies (or series thereof) organized as open-end management investment companies, unit investment trusts or similar entities that hold portfolios of securities and/or financial instruments including, but not limited to, stock index futures contracts, options on futures, options on securities and indexes, equity caps, collars and floors, swap agreements, forward contracts, repurchase agreements and reverse purchase agreements (the "Financial Instruments"), and money market instruments, including, but no limited to, U.S. government securities and repurchase agreements (the "Money Market Instruments") comprising or otherwise based on or representing investments in indexes or portfolios of securities and/or Financial Instruments and Money Market Instruments (or that hold securities in one or more other registered investment companies that themselves hold such portfolios of securities and/or Financial Instruments and Money Market Instruments); or

(ii) represent interests in a trust or similar entity that holds a specified non-U.S. currency deposited with the trust or similar entity when aggregated in some specified minimum number may be surrendered to the trust by the beneficial owner to receive the specified non-U.S. currency and pays the beneficial owner interest and other distributions on deposited non-U.S. currency, if any, declared and paid by the trust ("Currency Trust Shares"); or

(iii) represent commodity pool interests principally engaged, directly or indirectly, in holding and/or managing portfolios or baskets of securities, commodity futures contracts, options on commodity futures contracts, swaps, forward contracts and/or

options on physical commodities and/or non-U.S. currency ("Commodity Pool Units"), or

(iv) represent interests in the SPDR Gold Trust or the iShares COMEX Gold Trust or the iShares Silver Trust or the ETFS Silver Trust or the ETFS Gold Trust or the ETFS Palladium Trust or the ETFS Platinum Trust or the Sprott Physical Gold Trust; or

(v) represents an interest in a registered investment company ("Investment Company") organized as an open-end management investment company or similar entity, that invests in a portfolio of securities selected by the Investment Company's investment adviser consistent with the Investment Company's investment objectives and policies, which is issued in a specified aggregate minimum number in return for a deposit of a specified portfolio of securities and/or a cash amount with a value equal to the next determined net asset value ("NAV"), and when aggregated in the same specified minimum number, may be redeemed at a holder's request, which holder will be paid a specified portfolio of securities and/or cash with a value equal to the next determined NAV ("Managed Fund Share") [provided that all of the following conditions are met:].

(B) The Units must either:

(i) meet the criteria and guidelines set forth in Rule 5.3 and Interpretation and Policy .01 thereunder, or

(ii) be available for creation or redemption each business day from or through the issuing trust, investment company, commodity pools or other issuer in cash or in kind at a price related to net asset value, and the issuing trust, investment company, commodity pools or other issuer is obligated to issue Units in a specified aggregate number even if some or all of the investment assets and/or cash required to be deposited have not been received by the, the issuing trust, investment company, commodity pools or other issuer, subject to the condition that the person obligated to deposit the investment assets has undertaken to deliver the investment assets and/or cash as soon as possible and such undertaking is secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the issuer of Units which underlie the option as described in the Units' prospectus.

(C) The Units must also meet the following criteria:

(i) are listed pursuant to generic listing standards for series of portfolio depository receipts and index fund shares based on international or global indexes under which a comprehensive surveillance agreement is not required; or

(ii)(a) [(A)] any non-U.S. component securities of an index or portfolio of securities on which the Units are based that are not subject to comprehensive

surveillance agreements do not in the aggregate represent more than 50% of the weight of the index or portfolio;

(b) [(B)] component securities of an index or portfolio of securities on which the Units are based for which the primary market is in any one country that is not subject to a comprehensive surveillance agreement do not represent 20% or more of the weight of the index;

(c) [(C)] component securities of an index or portfolio of securities on which the Units are based for which the primary market is in any two countries that are not subject to comprehensive surveillance agreements do not represent 33% or more of the weight of the index;

(d) [(D)] for Currency Trust Shares, the Exchange has entered into a comprehensive surveillance sharing agreement with the marketplace or marketplaces with last sale reporting that represent(s) the highest volume in derivatives (options or futures) on the specified non-U.S. currency, which are utilized by the national securities exchange where the underlying Currency Trust Shares are listed and traded; and

[(E) either (x) the Units meet the criteria and guidelines set forth in Rule 5.3 and Interpretation and Policy .01 thereunder, or (y) the Units are available for creation or redemption each business day from or through the issuing trust, investment company, commodity pools or other issuer in cash or in kind at a price related to net asset value, and the issuing trust, investment company, commodity pools or other issuer is obligated to issue Units in a specified aggregate number even if some or all of the investment assets and/or cash required to be deposited have not been received by the, the issuing trust, investment company, commodity pools or other issuer, subject to the condition that the person obligated to deposit the investment assets has undertaken to deliver the investment assets and/or cash as soon as possible and such undertaking is secured by the delivery and maintenance of collateral consisting of cash or cash equivalents satisfactory to the issuer of Units which underlie the option as described in the Units' prospectus.]

(e) [(F)] for Commodity Pool Units, the Exchange has entered into a comprehensive surveillance sharing agreement with the marketplace or marketplaces with last sale reporting that represent(s) the highest volume in such commodity futures contracts and/or options on commodity futures contracts on the specified commodities or non-U.S. currency, which are utilized by the national securities exchange where the underlying Commodity Pool Units are listed and traded.

Rule 5.4 Withdrawal of Approval of Underlying Securities

No changes.

...Interpretations and Policies

.01 - .07 No changes.

.08 Securities consisting of shares or other securities ("Units") that represent interests in registered investment companies (or series thereof) organized as open-end management investment companies, unit investment trusts or similar entities that were initially approved for options trading pursuant to Interpretation and Policy .06 under Rule 5.3 shall be deemed not to meet the Exchange's requirements for continued approval, and the Exchange shall not open for trading any additional series of option contracts of the class covering such Units, if the Units cease to be an "NMS stock" as provided in paragraph (f) of Interpretation and Policy .01 of this Rule 5.4 or the Units are halted from trading in their primary market. In addition, two Floor Officials, in consultation with a designated senior executive officer of the Exchange, shall consider the suspension of opening transactions in any series of options of the class covering Units in any of the following circumstances:

(a) In the case of options covering Units approved for trading [pursuant to clause (E)(x)] under Rule 5.3 and Interpretation and Policy .06(B)(i) thereunder [of Rule 5.3], in accordance with the terms of paragraphs (a), (b), (c) and (d) of Interpretation and Policy .01 of this Rule 5.4; or

(b) In the case of options covering Units approved for trading [pursuant to clause (E)(y)] under Rule 5.3 and Interpretation and Policy .06(B)(ii) thereunder [of Rule 5.3], following the initial twelve-month period beginning upon the commencement of trading in the Units on a national securities exchange and are defined as an "NMS stock" under Rule 600 of Regulation NMS, there are fewer than 50 record and/or beneficial holders of such Units for 30 or more consecutive trading days; or

(c) The value of the index or portfolio of securities, non-U.S. currency, or portfolio of commodities including commodity futures contracts, options on commodity futures contracts, swaps, forward contracts and/or options on physical commodities and/or Financial Instruments and Money Market Instruments on which the Units are based is no longer calculated or available; or

(d) Such other event shall occur or condition exist that in the opinion of the Exchange makes further dealing in such options on the Exchange inadvisable.
