Re: Cboe Futures Exchange, LLC Rule Certification
Submission Number CFE-2026-004

Dear Mr. Kirkpatrick:

Pursuant to Section 5c(c)(1) of the Commodity Exchange Act, as amended (“Act”), and Regulation 40.6(a) of the regulations promulgated by the Commodity Futures Trading Commission (“CFTC” or “Commission”) under the Act, Cboe Futures Exchange, LLC (“CFE” or “Exchange”) hereby submits a CFE rule amendment (“Amendment”) to amend the Lead Market Maker Program (“LMM Program”) for Cboe® iBoxx® \$ Emerging Market Bond Index (“IEMD”) futures. The Amendment is set forth in a segregated confidential Appendix A to this submission. The Amendment will become effective on April 1, 2026.

Any CFE Trading Privilege Holder (“TPH”) organization may apply to the Exchange for appointment as a lead market maker (“LMM”) under the amended LMM Program. Each LMM application, LMM appointment, and LMM under the amended LMM Program is specific to a TPH and to one of that TPH’s Executing Firm IDs (“EFIDs”) referred to as an “LMM Program EFID”. Accordingly, a TPH may apply for and receive more than one LMM appointment under the amended LMM Program, each of which is applicable to that TPH and to a different LMM Program EFID of that TPH. In that case, each of those LMMs is separately subject to the provisions of the amended LMM Program, including the market performance benchmark and benefit provisions of the amended LMM Program, as a single LMM.

There is no limit on the number of LMMs that the Exchange may appoint as LMMs for IEMD futures under the amended LMM Program. LMMs are selected by the Exchange under the amended LMM Program based on the Exchange’s judgment as to which applicants are most qualified to perform the functions of an LMM for IEMD futures based on specified criteria.

The amended LMM Program provides for market performance benchmarks that LMMs must satisfy in order to receive specified benefits. The market performance benchmarks include parameters with respect to minimum two-sided quote size and maximum quote width. The amended LMM Program includes market performance benchmarks that are applicable during regular trading hours for IEMD futures and market performance benchmarks that are applicable during a segment of extended trading hours for IEMD futures. The benefits under the amended LMM Program are intended to attract and retain liquidity providers in IEMD futures. Exhibit 1 to this submission includes the description of the amended LMM Program which CFE will include in

Policy and Procedure XVI of the Policies and Procedures Section of the CFE Rulebook.¹ The Exchange believes that the market performance benchmarks and associated benefits under the amended LMM Program strike the appropriate balance to incentivize and retain liquidity providers in IEMD futures.

The amended LMM Program expires on March 31, 2027, unless the amended LMM Program is extended by the Exchange. CFE may determine to extend the term of the amended LMM Program and LMM appointments under the amended LMM Program, allow the amended LMM Program and LMM appointments under the amended LMM Program to expire, terminate the amended LMM Program and all LMM appointments under the amended LMM Program at any time, or amend or replace the amended LMM Program with a different market maker program at any time. Any of these actions, other than allowing the amended LMM Program to expire, would be done through a subsequent rule amendment submission to the Commission.

CFE believes that the Amendment is consistent with the Designated Contract Market (“DCM”) Core Principles under Section 5 of the Act. In particular, CFE believes that the Amendment is consistent with DCM Core Principles 2 (Compliance with Rules), 4 (Prevention of Market Disruption), 9 (Execution of Transactions), and 12 (Protection of Markets and Market Participants). CFE notes in this regard that: Each LMM in the amended LMM Program is obligated by CFE Rule 308 (Consent to Exchange Jurisdiction) to comply with Exchange rules. Each LMM is also required under the terms of the amended LMM Program to utilize Exchange match trade prevention functionality under CFE Rule 406B (Match Trade Prevention) with respect to trading in IEMD futures through its LMM Program EFID. Exchange rules include prohibitions against fraudulent, non-competitive, unfair, and abusive trading practices, and the Exchange will monitor trading in IEMD futures for violative activity such as wash trading, manipulative trading, and market abuse. The Exchange believes that the amended LMM Program will have a positive impact on the price discovery process by fostering improved liquidity, market width and size, and trading volume in IEMD futures traded on CFE’s centralized market and by incentivizing market participants to devote their efforts to enhancing market quality in IEMD futures. Enhanced market quality benefits all participants in the IEMD futures market. Accordingly, CFE believes that the impact of the Amendment will be beneficial to the public and market participants.

CFE is not aware of any substantive opposing views to the Amendment. CFE hereby certifies that the Amendment complies with the Act and the regulations thereunder. CFE further certifies that it has posted a notice of pending certification with the Commission and a copy of this submission on CFE’s website (http://www.cboe.com/us/futures/regulation/rule_filings/cfe/) concurrent with the filing of this submission with the Commission.

Questions regarding this submission may be directed to Arthur Reinstein at (312) 786-7570 or Grey Tanzi at (312) 786-7171. Please reference our submission number CFE-2026-004.

XVI. Cboe® iBoxx® \$ Emerging Market Bond Index Futures Lead Market Maker Program

The Cboe® iBoxx® \$ Emerging Market Bond Index (“IEMD”) Futures Lead Market Maker Program (“Program”) is applicable with respect to IEMD futures.

Trading Privilege Holder (“TPH”) organizations may apply to the Exchange for appointment as a lead market maker (“LMM”) under the Program. Each LMM application, LMM appointment, and LMM under the Program is specific to a TPH and to one of that TPH’s Executing Firm IDs (“EFIDs”) referred to as an “LMM Program EFID”.

Accordingly, a TPH may apply for and receive more than one LMM appointment under the Program, each of which is applicable to that TPH and to a different LMM Program EFID of that TPH. In that case, each of those LMMs is separately subject to the provisions of the Program, including the market performance benchmark and benefit provisions of the Program, as a single LMM.

There is no limit on the number of LMMs that the Exchange may appoint under the Program. Any TPH that desires to apply for LMM status under the Program should submit an application in a form and manner prescribed by the Exchange.

LMMs shall be selected by the Exchange based on the Exchange’s judgment as to which applicants are most qualified to perform the functions of an LMM under the Program. Factors to be considered in making this selection may include, but are not limited to, satisfaction of the qualifications listed below as well as any one or more of the factors listed in Rule 515(b), as applied to LMM applicants instead of with respect to DPM applicants.

The following describes the qualifications, requirements, market performance benchmarks, benefits, and appointment term under the Program unless otherwise specified.

Qualifications

- Ability to automatically and systematically provide two-sided markets for IEMD futures.

Requirements

- Each LMM shall designate in advance to the Exchange an LMM Program EFID. An LMM Program EFID is a single EFID through which the LMM will provide Orders to satisfy the market performance benchmarks under the Program. The LMM Program EFID designated by an LMM must be an EFID assigned to that TPH and may not be an EFID of another TPH. An LMM shall inform the Exchange in advance if the LMM determines to change its LMM Program EFID.

- Each LMM is required to utilize Exchange match trade prevention functionality under Rule 406B with respect to trading in IEMD futures through its LMM Program EFID.

Market Performance Benchmarks

- Each LMM shall provide Orders in IEMD futures in conformity with specified criteria relating to minimum two-sided quote size and maximum quote width in order to receive specified benefits. Certain of these criteria apply during regular trading hours for IEMD futures and certain of these criteria apply during a specified segment of extended trading hours for IEMD futures.
- The Exchange may terminate, place conditions upon or otherwise limit a TPH's appointment as an LMM under the Program if the TPH fails to satisfy both the market performance benchmarks under the Program applicable during regular trading hours for IEMD futures and during a specified segment of extended trading hours for IEMD futures. However, failure of a TPH to satisfy the market performance benchmarks under the Program shall not be deemed a violation of Exchange rules.

Benefits

- An LMM is eligible to receive specified benefits in connection with acting as an LMM under the Program.

Term

- The Program and each LMM appointment under the Program will expire on March 31, ~~2026~~ 2027. The Exchange may determine to extend the term of the Program and LMM appointments under the Program, allow the Program and LMM appointments under the Program to expire, terminate the Program and all LMM appointments under the Program at any time or amend or replace the Program with a different market maker program at any time.
