

## Bats to Support T+2 Clearing in the Certification Environment

### Overview

As noted in the [DTCC T+2 Testing White Paper](#), Bats will report trades in a subset of symbols in the certification environment to the DTCC PSE certification environment to facilitate T+2 testing beginning **Monday, February 13, 2017**. Bats will have order generators running during market hours and firms wishing to test will need to send a marketable order in one of the symbols detailed in the [DTCC T+2 Testing CUSIPS](#) list.

As a reminder, all Bats Exchanges, BZX Exchange, BYX Exchange, EDGA Exchange, and EDGX Exchange will support T+2 testing in the respective certification environments which are available free of charge every business day.

### Additional Information

Please contact the Bats Trade Desk or your [Director of Sales](#) with any questions. We appreciate your continued support of Bats and look forward to earning more of your business.
