Logical Ports Tool Enhancement

Overview

Based on customer feedback, Cboe is pleased to announce that effective Monday, March 5, 2018, the Logical Ports tool in the Customer Web Portal will contain four additional data points per logical port:

- ➢ Default Clearing MPID/EFID
- ➢ Bill To (*who will the port be billed to*)
- ➢ Added (*date a port was added*)
- ➢ Requestor (*who originally requested the logical port*)

This information will be presented in the graphical interface of the Logical Ports tool and will also be available in CSV format by using the "Export" feature within the tool.

Additional Information

Please contact the Cboe Trade Desk with any questions.

We appreciate your continued support and will work hard every day to keep earning your business by powering your potential to stay ahead of an evolving market. As always, we are committed to our customers and to making markets better as your partner in trading.
