

# Dissemination of Non-firm Quotes to OPRA in the Pre-market

Reference ID: C2019022800

## **Overview**

As part of Cboe Options Technology Integration [Feature Pack 4 \(Market Data Enhancements\)](#), effective today Cboe ceased to disseminate pre-open “non-firm” quotes to OPRA during the pre-open queuing period on BZX, C2, and EDGX Options Exchange. This is a necessary change to prepare the Cboe Options Exchanges for the introduction of GTH Trading Hours scheduled for release with C1 Feature Pack 7.

Effective tomorrow, March 1, 2019, Cboe will be reverting this particular change until further notice and will resume dissemination of “non-firm” quotes to OPRA in the pre-open queuing sessions.

All other C1 Feature Pack 4 market data enhancements will continue to function as originally announced and implemented today.

## **Additional Information**

Please contact the Cboe Trade Desk, for support or with any questions. Additionally, you may refer to the C1 integration website for more details at <https://batsintegration.cboe.com/c1>.

We appreciate your business and remain committed to powering your potential with Cboe products, technologies, and solutions.
