

Conference Call to Review Post Technology Migration Requirements for Order Routing to Cboe Floor Brokers

Reference ID: C2019011802

Overview

The migration of the Cboe Options Exchange to the Bats technology platform is scheduled to complete on October 7, 2019. Upon migration, users routing orders for manual handling by Cboe floor brokers will be required to populate specific FIX or BOE fields and/or utilize order entry port settings to identify the target floor broker device to which the order is to be routed.

In order to provide details and respond to questions related to [Direct Route to PAR](#), the Cboe Market Structure and Functionality (“MSF”) group will host a conference call for Trading Permit Holders (TPHs) who route orders to Cboe floor brokers. The conference call will take place on Wednesday, January 23, 2019 at 12:00 PM CT. Please use the conference call number below.
