

Update: C2 and EDGX Options Exchanges Add Support for Post Only Complex Orders (Release Date Updated)

Reference ID: C2019011700

Overview **(UPDATED)**

Cboe Global Markets will introduce new functionality to the C2 Options Exchange (“C2”) and EDGX Options Exchange (“EDGX”) to support Post Only Complex Orders. This enhanced order handling will be available in EDGX on Wednesday, January 30, 2019 and available in C2 on Wednesday, February 6, 2019.

Technical Details

Once enabled, C2 and EDGX will support Post Only instructions on Complex Orders. Members can submit a Post Only Complex Order by sending *RoutingInst* (FIX Tag 9303) = ‘P’, as a 1st character value.

FIX Tag	BOE Field	Description
9303	<i>RoutingInst</i>	P = Post Only (adds liquidity only)

In addition, on the effective date, C2 and EDGX will support entering of Post Only Complex Orders on BOE Bulk Quoting Ports. This will allow liquidity providers that use BOE Bulk Quoting Ports for quoting simple options to also use those same ports to provide liquidity on complex options.

Rollout Schedule **(UPDATED)**

Milestone	Target Availability Date
Certification Launch (<i>C2 Options and EDGX Options</i>)	11/12/18 Available now
Production Launch 1 st Phase (<i>EDGX Options</i>)	01/30/19
Production Launch 2 nd Phase (<i>C2 Options</i>)	02/06/19

Testing Opportunities

The enhanced order handling functionality is currently available for testing in C2 and EDGX certification environments.
