

Updated VIX Index Website Materials

Reference ID: C2019101401

Overview

Applicable Cboe Exchanges: Cboe Options, CFE

Upon migration to Bats technology, Cboe Exchange, Inc. (Cboe Options) amended the modified opening auction process used in connection with calculating the final settlement value of Cboe Volatility Index (VIX Index) options (listed on Cboe Options) and futures (listed on Cboe Futures Exchange, LLC (CFE)).

As a result, Cboe updated the previous VIX Index [FAQs](#) and related Cboe website materials about the VIX Index, derivatives listed on the VIX Index, special opening quotation (SOQ) auction information, and additional information and resources. These website materials are accessible from both the Cboe Options and CFE website pages.

Please contact the Cboe Trade Desk or CFE Trade Desk for support or with any questions.

We appreciate your business and remain committed to powering your potential with Cboe products, technologies, and solutions.
