

Cboe Silexx Enhancements – August 31, 2020

Reference ID: C2020083100

Overview

Cboe Silexx is excited to announce the following enhancements:

- **Multi Order Ticket**
 - An alternative order ticket that supports:
 - Options and Futures
 - Simple and multi-leg (including tied) orders
 - Crossing / paired orders

- **EDGX Options and Cboe Futures Exchange** direct market access is now supported (Exchange membership required).

- **Trade Drop Copy** provides electronic trade reports for more than 10 originating clients. Contact Silexx-Sales@cboe.com for details or to request additional clients.

- **Billing code** can be applied upon order entry and is reflected in Order Manager and Order History.

- **Crossing / paired orders** can be seamlessly created via staged orders for efficient order handling.

- **Queued Orders**
 - Quick Trade, Multi, and FLEX order tickets now support queued orders.
 - Queued orders are reflected in Order Manager for efficient order handling.

- **Option Chain**
 - View current market and implied vols and Greeks, powered by Cboe Hanweck.
 - Default preferred order ticket type via ticket settings.

- **Watchlist**
 - View pre-defined or customized lists to monitor underlying symbol activity including bid, ask, last, and volume.

- **Entitlements** are now applied in real-time, eliminating log out/log in to access new features.

Please contact Cboe Floor Support for Cboe Silexx training and contact Cboe [Silexx Support](#) for technical questions.

We appreciate your business and remain committed to powering your potential with Cboe products, technologies, and solutions.
