Reference ID: C2020092801

### Overview

**Applicable Cboe Exchanges:** Cboe Options, EDGX Options

**Effective October 7, 2020**, Cboe Options ("C1") and EDGX Options ("EDGX") will add FOG Equities, Libucki & Co., and SRT Securities via NYSE Chicago as stock leg crossing destinations for Qualified Contingent Cross ("QCC") orders.

Cboe Silexx will also support routing to these destinations upon the effective date.

### Technical Details

A QCC order is comprised of an originating order to buy or sell at least 1,000 options contracts (or 10,000 mini-option contracts), identified as being part of a qualified contingent trade ("QCT") and coupled with a contra-side order or orders totaling an equal number of contracts. Currently, the crossing of stock legs on options orders may only be sent to Cowen for execution, printing, and clearing. On the effective date, FOG Equities, Libucki & Co., and SRT Securities via NYSE Chicago will be added as a possible destination for the stock leg crossing of QCC orders.

The *EquityExDestination* field (FIX Tag 22016) should be used to specify the destination for the stock leg crossing of QCC orders. Additionally, the new *CrossInitiator* field (FIX Tag 22026) will be required for QCC orders being routed to any of the NYSE Chicago brokers.
