

Reminder - Cboe Adds Support for BOE Return Field *ExecLegCFIcode*

Reference ID: C2020021400

Overview

Applicable Cboe Exchanges: Cboe Options, C2 Options, EDGX Options

Effective February 19, 2020, Cboe will add support for the BOE protocol return field *ExecLegCFIcode* on the Cboe Options ("C1"), C2 Options ("C2"), and EDGX Options ("EDGX") Exchanges.

Technical Details

Upon the effective date, *ExecLegCFIcode* will be available on byte 17 of the `Order Execution` return order bitfields. This field will only be populated on `Order Execution` messages for the legs of complex orders; otherwise it will be blank.

Valid values for *ExecLegCFIcode* are as follows.

- OP = Option Put
- OC = Option Call
- E = Equity

Testing Opportunities

This new BOE return field is currently available for testing in the C1, C2, and EDGX certification environments.

Additional Information

For additional information, refer to the following technical specification.
