Session Disconnect on July 3, 2018 and July 4, 2018

There will be a session disconnect on July 3, 2018 during the suspended state between 12:15 p.m. to 4:45 p.m. that will occur at approximately 4:10 p.m. Similarly, there will be a session disconnect on July 4, 2018 during the suspended state between 10:30 a.m. to 4:45 p.m. that will also occur at approximately 4:10 p.m.

The session disconnects described above will not cause any orders to cancel due to cancel on disconnect. As a general rule, cancel on disconnect is not in effect once the scheduled end of trading for a given futures product is reached. Cancel on disconnect is effective again for that product upon the next system restart. TPHs may refer to the FIX and BOE specification for further information on how to configure cancel on disconnect settings.
