Cboe Options Exchange (C1) Technology Integration Update Conference Call on July 9, 2019

Reference ID: C2019061300

Integration Call

Cboe will conduct its next technology integration conference call at **11:30 a.m. CT on Tuesday July 9, 2019** to update customers regarding the migration of the **Cboe Options Exchange ("C1")** trading platform to Bats technology. Details regarding Cboe's data center strategy, the integration timeline, and key milestone dates as well as additional information will be provided during the call.

To access the event please use the following credentials:

Dial-In (Toll Free): 1-877-883-0383
Dial-In (International): 1-412-902-6506
Participant Code: 6465357
(Participants should dial in 10-15 minutes early to join the conference)

Access the event via webcast: https://services.choruscall.com/links/cboe190709D5bvUyL9.html

Submit Your Cboe Integration Questions

If you would like to send questions in advance to be answered during the call, please email batsintegration@cboe.com. Please send your questions by the morning of **Monday, July 8, 2019**.

Platform Integration Schedule

The C1 Integration Schedule overview appears below. Additional detailed information regarding the Integration Schedule, including incremental feature packs to be released on the C2, EDGX, and BZX Options Exchanges in advance of the C1 migration date, will be provided during the call.

C1 Integration Schedule (COMPLETE)

Target Date*	Milestone
04/30/18	SPX A.M. settled options converted to the standard Hybrid trading platform.
10/15/18	Rollout of PAR 2.0 (new floor terminals) begins.
11/16/18	Technical Specifications for C1 on Bats technology will be made available on the technical specifications website.
02/01/19	Physical connections to the new C1 platform accepted.

	C1 will have dedicated network infrastructure and customer connections, separate from our other U.S. equity and options exchanges.
03/04/19	~~Certification period for customer testing begins.~~
04/02/19	~~Logical order entry ports will be created on the new production trading platform for every login that exists on the current production trading platform for C1 effective this date. A single FIX Drop port will be created for every firm as well. C1 TPHs may begin ordering additional logical ports or requesting unnecessary ports be deleted within the new production environment. TPHs will be required to audit their production sessions to ensure they have a desirable number prior to the migration to the new production platform.~~
05/06/19	~~Daily (Monday – Friday) trading of TEST SYMBOLS ONLY in new C1 NY5 production environment.~~
06/15/19	Weekend test opportunity in new C1 production environment.
07/27/19	Weekend test opportunity in new C1 production environment.
08/24/19	Weekend test opportunity in new C1 production environment.
09/14/19	Weekend test opportunity in new C1 production environment.
09/28/19	Weekend test opportunity in new C1 DR environment.
10/05/19	Weekend test opportunity in new C1 production environment.
10/07/19**	**C1 migration to Bats technology completed.**

* While target dates are subject to change, any updates will be communicated to TPHs/Members via email, on the Cboe (cboe.com) website and at https://batsintegration.cboe.com/c1.

** pending regulatory review

Additional Information

Please contact the Cboe Trade Desk, the Cboe Operations Support Center, or your Sales Account Manager with any questions. For additional general details regarding the integration, please refer to the integration website at http://www.cboe.com/batsintegration, or for additional C1 specific information please refer to the C1 integration website:
