

# CFE Memorial Day Holiday and BOEv3 Failover Testing Opportunities

Reference ID: C2021051400

## Overview

To provide additional opportunities for testing holiday schedule system behavior, the CFE certification trading environment will be configured to observe a simulated Memorial Day holiday trading session beginning Sunday, May 23, 2021. CFE will also conduct BOEv3 protocol failover testing in its CFE certification environment on Wednesday, May 26, 2021 and Thursday, May 27, 2021.

## Simulated Memorial Day Holiday Trading Schedule

The simulated Memorial Day Holiday Trading Schedule in the CFE certification trading environment will follow the modified trading hours of the previously announced [CFE Modified Trading Hours for the Memorial Day Holiday](#) notice. Please use the previous notice as a guide to our modified trading hours for the simulated Memorial Day Holiday during this testing opportunity.

## BOEv3 Protocol Failover Testing

CFE will conduct BOEv3 failover testing on Wednesday, May 26, 2021 and Thursday, May 27, 2021 at 10:00 a.m. C.T. on each of the respective days. The failover testing will simulate the scenarios described in our [BOEv3 Specification](#) where the BOEv3 Secaucus Primary port (A) is unavailable and BOEv3 protocol users are required to connect to Secaucus Secondary port (B). BOEv3 Unit 1 failover testing will occur on Wednesday, May 26, 2021, and BOEv3 Unit 2 failover testing will occur on Thursday, May 27, 2021. The table below describes the CFE products associated with each unit.

Symbol Range Start	BOEv3 Unit Used for Testing.
VX, VXT, VXM, VXMT	Unit 1
All Other Products	Unit 2

## Additional Information

Please contact the CFE Trade Desk for support or with any questions.

We appreciate your business. Our trading community inspires and drives our mission of defining markets.
