

New Cboe Opening Auction Feed

As previously [announced](#), Cboe Global Markets will introduce the Cboe Opening Auction Feed, which will be launched on Cboe Options Exchange on **Monday, July 9**.

The Cboe Opening Auction Feed will provide market participants with a view of auction information over a separate multicast market data feed delivered through the Cboe CSM platform. The Cboe Opening Auction Feed has been developed to extend visibility into Cboe Options opening auction process to a wider audience and will be provided free of charge. See the [Tradedesk Update](#).

PAR 2.0 Update

Cboe Options plans to launch a redesign of its Public Automated Routing (PAR) application in Q4 2018. The new platform, PAR 2.0, is currently in its development phase. The application is and will continue to be available at the Reporting Desk at Post 10 for users to review the progression of application enhancements and provide feedback. PAR users are encouraged to arrange for regular opportunities to participate.

PAR 2.0 2018 Rollout Schedule	
August 21-October 15	In depth training and interaction with the new platform
October 15-November 15	Gradual rollout of PAR 2.0 to at least one workstation in each PAR user group
November 16-December 31	Legacy PARs (PAR 1.0) fully migrated to PAR 2.0

See the [Tradedesk Update](#) for more information.

May Highlights for Cboe Europe Equities

On Monday, Cboe reported highlights from May 2018 for Cboe Europe Equities, including record average daily notional value traded for its block trading platform, Cboe LIS, as well as its Periodic Auctions book. See the [press release](#) for details.

Frequent Trader ID Field Re-Activation on Cboe Trade Match (CTM) Terminal

Effective this **Monday, June 18**, the Frequent Trader ID field enhancement will be re-activated on the Cboe Options Exchange CTM terminal trade browse screen. See the [Tradedesk Update](#).

Financial Services Committee Unanimously Passes Options Markets Stability Act

Yesterday, the House Committee on Financial Services unanimously passed H.R. 5749, the Options Markets Stability Act. The legislation, authored by Congressman Randy Hultgren of Illinois (R) and amended by Congressman Bill Foster of Illinois (D), would facilitate liquidity in options markets by calling on bank regulators to provide targeted capital relief.

Cboe worked hard to educate legislators about the issue and is pleased with the strong support the bill received, which would mandate agency rulemaking that considers delta-weighting and netting of options positions within one year of enactment. See more [here](#).

Lead Market-Maker for MSCI Options Selected

Cboe Options Exchange has selected Susquehanna Securities as Lead Market-Maker for MSCI EAFE Index (MXEA) and MSCI Emerging Markets Index (MXEF) options. See the [Tradedesk Update](#) for more information.

Cboe Equities to Update Super Aggressive Functionality

Effective **Tuesday, June 26**, for Cboe EDGA Exchange and **Thursday, June 28** for Cboe BYX, BZX and EDGX Exchanges, Cboe will update the behavior of orders sent with a Super Aggressive routing instruction, subject to regulatory review. See the [Tradedesk Update](#).

BZX Exchange and BYX Exchange to Extend Post-Market Session Hours

Cboe BYX Exchange and Cboe BZX Exchange will extend post-market session trading hours to conclude at 7:00 pm CT/8 pm ET, effective **Monday, July 30** for BZX Exchange and **Monday, August 27** for BYX Exchange. See the [Tradedesk Update](#) for additional information.

We encourage your input on these and other exchange matters. Please feel free to contact us.
