

New CFE Products Added in April 2019

For additional details on each of the contracts being added to CFE this month, see the [Tradedesk Update](#).

Cboe Options Adds ‘Names Later’ Feature

On **Monday, April 15**, Cboe Options Exchange plans to introduce Names Later, a new PAR feature offering an alternate approach to trade reporting. The Names Later feature will allow a PAR Operator to send time and sales reporting trade information to Cboe Options immediately and submit the contra-party information later.

The Cboe Trading Floor Operations group will contact each TPH PAR Operator to schedule individual or group training sessions. The training sessions may be used for review of this new feature as well as other PAR concerns. For additional technical details, see the [Tradedesk Update](#).

Important Cboe Options Exchange Migration Update

Cboe’s technology team has made several updates to its migration plans, including updated information about the migration timeline, feature packs, technical reference documents and physical port billing. See the [Tradedesk Update](#) for details.

Technology Integration Feature Pack 6

Effective **Thursday, May 2**, Cboe plans to introduce new functionality to the Cboe EDGX Options Exchange to support AON orders, as well as updates to Step-Up-Mechanism (SUM) orders, subject to regulatory review. Testing of the new AON order functionality is available in the Cboe EDGX Options certification environment.

The new features and enhancements are in preparation for the migration of Cboe Options Exchange to Bats technology on **October 7, 2019**, subject to regulatory review. For more information on Feature Pack 6, see the [Tradedesk Update](#).

Cboe Options Exchanges to End Dissemination of Non-Firm Quotes to OPRA in Pre-market

Effective **Thursday, April 25**, Cboe will disable the release of pre-open “non-firm” quotes to OPRA during the pre-open queuing period on BZX, C2 and EDGX Options Exchanges.

On the effective date, additional spins will be provided to OPRA at 8:30 a.m. ET and 9:00 a.m. ET. The spins will contain zero values for the price and size fields for each symbol. See the [Tradedesk Update](#).

This change is necessary to prepare the exchanges for the introduction of GTH Hours, scheduled for release with Feature Pack 7. Feature Pack 7 details will be announced via a future Tradedesk Notice. Refer to the [Integration Website](#) for more details.

Trading Schedule for Good Friday Holiday

Cboe U.S. equities and options exchanges will be closed on **Friday, April 19**, in observance of Good Friday. Normal trading will resume on **Monday, April 22**. See the [Tradedesk Update](#). CFE trading hours for the holiday can be found [here](#).

Power Shutdown in Chicago Next Friday

On **Friday, April 19**, at 8:00 a.m. CT, the Cboe Facilities Department will begin maintenance on the electrical infrastructure network at the Chicago building at 400 South LaSalle.

To complete this work, a shutdown of power is required for the entire building, including the data centers and trading floor. The work is scheduled to be completed by 8:00 a.m. CT on **Saturday, April 20**. See the [Tradedesk Update](#) for more information.

We encourage your input on these and other exchange matters. Please feel free to contact us.
