

Trading Schedule for Good Friday Holiday

Cboe U.S. equities and options exchanges will be closed tomorrow, **Friday, April 19**, in observance of Good Friday. Normal trading will resume on **Monday, April 22**. See the [Tradedesk Update](#). CFE trading hours can be found [here](#).

Cboe Options Exchange Migration Update

Cboe's technology team has made several updates to its migration plans, including updated information about the migration timeline, feature packs, technical reference documents and physical port billing. See the [Tradedesk Update](#) for details.

Technology Integration Feature Pack 6

Effective **Thursday, May 2**, Cboe plans to introduce new functionality to the Cboe EDGX Options Exchange to support All-or-None (AON) orders, as well as updates to Step-Up-Mechanism (SUM) orders, subject to regulatory review. Testing of the new AON order functionality is available in the Cboe EDGX Options certification environment.

The new features and enhancements are in preparation for the migration of Cboe Options Exchange to Bats technology on **October 7, 2019**, subject to regulatory review. For more information on Feature Pack 6, see the [Tradedesk Update](#).

Cboe Options Exchanges to End Dissemination of Non-Firm Quotes to OPRA in Pre-market

Effective **Thursday, April 25**, Cboe will disable the release of pre-open "non-firm" quotes to OPRA during the pre-open queuing period on BZX, C2 and EDGX Options Exchanges.

Currently, the exchanges provide a single spin of current quotes to OPRA at 8:00 a.m. ET. On **Thursday, April 25**, additional spins will be provided at 8:30 a.m. ET and 9:00 a.m. ET. The spins will contain zero values for the price and size fields for each symbol. See the [Tradedesk Update](#).

This change is necessary to prepare the exchanges for the introduction of GTH Hours, scheduled for release with Feature Pack 7. Feature Pack 7 details will be announced via a future Tradedesk Notice. Refer to the [Integration Website](#) for more details.

Cboe Options Exchange Trade Detail File and Trade Data Report Update

Effective **Wednesday, May 1**, all Trade Detail files downloaded from the Customer Web Portal and issued monthly will contain two additional fields, Floor Trader and Contra Floor Trader. This change will align with identical additions made to the daily Trade Data Report. For more information, see the [Tradedesk Update](#).

C2 Plans to List Options on DJX

On **Monday, May 8**, Cboe C2 Options Exchange will begin trading options on the Dow Jones Industrial Average Index (DJX). DJX options are currently traded on the Cboe Options Exchange. For more details, see the [Tradedesk Update](#).

Power Shutdown in Chicago Tomorrow

On, **Friday, April 19**, at 8:00 a.m. CT, the Cboe Facilities Department will begin maintenance on the electrical infrastructure network at the Chicago building at 400 South LaSalle.

To complete this work, a shutdown of power is required for the entire building, including the data centers and trading floor. The work is scheduled to be completed by 8:00 a.m. CT on **Saturday, April 20**. See the [Tradedesk Update](#) for more information.

Quarterly Rebalance of Options Class Tiers and Online Appointment System Reminder

Cboe Options rebalances the option class appointment cost tiers every quarter. Market-Makers or Market-Maker affiliated firms will have until **Tuesday, April 30**, to adjust their appointment and/or number of Market-Maker Trading Permits as necessary. The rebalancing using first-quarter data will take effect **Wednesday, May 1**. See the [Tradedesk Update](#) for additional details.

We encourage your input on these and other exchange matters. Please feel free to contact us.
