

Cboe Reports Record First-Quarter 2020 Financial Results

Cboe Global Markets reported its financial results for the first quarter of 2020 before the market open this morning. For more information, go to the [Investor Relations](#) webpage.

Cboe and FTSE Russell Extend Licensing Agreement Through 2030

On **Wednesday, April 29**, Cboe announced it signed an exclusive licensing agreement with FTSE Russell, extending Cboe's rights to develop and list index options products based on FTSE Russell global indices through 2030.

The strategic relationship enables Cboe to continue its successful FTSE Russell-based options franchise and provides opportunity for Cboe to further expand its product suite and create additional trading opportunities for investors. See the [press release](#), or click [here](#) to read more on the Cboe blog.

Update – CFE Announces New Quoting Interface and Risk Reset Functionality Launch Date

CFE plans to introduce new Quoting Interface functionality using the existing Binary Order Entry (BOE) protocol in phases, *subject to regulatory review*. On **Sunday, May 3**, CFE will implement the Quoting Interface for CFE Trade at Settlement (TAS) contracts for business date **Monday, May 4**. See the [Tradedesk Update](#) for the full rollout schedule.

Cboe Options to Remove Notional Exposure Tracking Support

Effective **Friday, May 8**, Cboe Options Exchanges will remove the support for tracking of gross and net notional on FIX and BOE ports. See the [Tradedesk Update](#).

Enhancement for Clearing Edits on FIX Drop

Effective **Wednesday, May 13**, C1, BZX, C2 and EDGX Options Exchanges will release an enhancement to improve the handling of post-trade clearing edits, including allocation/splits, performed in the Clearing Editor. See the [Tradedesk Update](#).

Cboe to Host 2020 Virtual Annual Meeting

As previously announced, Cboe will host the company's 2020 Annual Meeting of Stockholders (Annual Meeting) virtually on **Tuesday, May 12**. Amidst the coronavirus (COVID-19) outbreak, Cboe is mindful of its responsibility to do all that it reasonably can to safeguard against the virus. See the [press release](#).

Changes to Standard Third Friday Expiration Listings for Equity, ETP and Index Options

Beginning **Thursday, May 14**, the Cboe Options Exchanges will list new replacement standard third Friday monthly expirations for Equity, ETP and Index options on the Thursday morning prior to the standard third Friday expiration, rather than on the first business morning after. For details, see the [Tradedesk Update](#).

Cboe Equities Exchanges Introduce Strategy Level Risk Controls

Effective **Friday, May 15**, *subject to regulatory review*, Cboe will introduce strategy level risk controls for EDGA Equities Exchange, *subject to regulatory review*. On **Friday, May 22**, this new functionality is planned to be introduced for BYX, BZX and EDGX Equities Exchanges. See the [Tradedesk Update](#).

Risk Reset, Mass Cancel and Purge Orders Message Rate Limit Changes

Effective **Wednesday, May 27**, Cboe will change message rate limits for Risk Reset, Mass Cancel and Purge Order messages on all Cboe Options Exchanges. See the [Tradedesk Update](#).

Cboe Options BOE Quoting Interface Update

Effective **Friday, July 10**, BZX, C1, C2 and EDGX Options Exchanges will restrict usage of the BOE Quoting Interface to Market Makers only. See the [Tradedesk Update](#).

We encourage your input on these and other exchange matters. Please feel free to contact us.
