Cboe Enhances Floor Trade Information on FIX Drop Ports to Support CAT 2(d) Reporting

Effective **Monday, December 20**, Cboe Options Exchange will introduce the new FIX protocol 'Send Floor Trade Time' port attribute, enabling the Cboe Options Exchange system to reflect the *TradeTime* (FIX Tag 5179) field on FIX Drop ports. The *TradeTime* field is populated on the *Add Floor Trade* message, as well as by floor trading and clearing editor activity. This additional information will help populate Floor Market-Maker MOOT event reporting as part of the CAT Industry Member 2(d) specification. See the **Tradedesk Update**.

New Enhancements on Cboe Silexx

Cboe Data and Access Solutions recently announced several new enhancements to Cboe Silexx. Notably, Cboe Silexx is now CAT phase 2(d) compliant. Window performance improvements and contingencies have been added to further enhance the user experience. See the **Tradedesk Update**.

CFE Trading Permit Program Extension

The term of each Cboe Futures Exchange (CFE) trading permit that is issued and outstanding at the end of 2021 will be automatically extended for an additional two years until **December 31, 2023**, unless the Trading Permit Holder (TPH) notifies CFE by 4:00 p.m. CT on **Thursday, December 30**. TPHs indicating that they would like the trading permit to expire on **Friday, December 31** should email **Membership Services**. Otherwise, no action is required by TPHs who wish to extend the term of the permit through 2023. See the **Tradedesk Update**.

Certification and Production Dates are Set for Cboe Options Implementation of New Curb Trading Session

Effective **February 7, 2022**, subject to regulatory review, Cboe Options Exchange will introduce a brief Curb session for proprietary VIX and SPX options products from 4:15 p.m. to 5:00 p.m. ET, Monday through Friday. All Cboe Members are eligible to participate in the Curb session. See the **Tradedesk Update**.

Happy Holidays from Cboe Global Markets!
