Global FX Matched ADNV (\$)	\$35.21B	\$33.59B	+4.8%

On **Wednesday, February 3**, Cboe reported January 2021 trading volume. Some highlights include:

- Cboe’s four options exchanges combined set a new single-day volume record with 18.5 million contracts traded on January 27.
- VIX futures average daily volume (ADV) was more than 247,000 contracts, up 77 percent from December 2020.
- Cboe EDGX Equities Exchange set a new monthly total volume record with nearly 23 billion shares traded.
- Cboe Europe's Dutch venue, Cboe NL, reported a record €4.9 billion average daily notional value (ADNV), up from €0.03 billion in December 2020, following a successful transition of activity in EU-listed securities post-Brexit.

For a full recap of volume highlights for the month, see the [press release](#).

Cboe Reports Fourth-Quarter and Full Year 2020 Financial Results

Cboe Global Markets reported its financial results for the fourth quarter and full year of 2020 before the market open this morning. For more information, visit the [Investor Relations](#) webpage.

Readmission to Trading of Swiss Registered Shares

On **Thursday, February 4**, Swiss (Zurich) listed securities were readmitted to Cboe UK for trading. Readmitted Zurich listed securities are included in all existing BXE and CXE trading tariffs and participants should ensure they have valid clearing permissions for trading these securities on Cboe UK. See the [Tradedesk Update](#).

MATCHNow Platform Migration Conference Call

On **Wednesday, February 17**, at 12:30 p.m. ET, Cboe will hold a conference call for MATCHNow customers to discuss the implementation plan and schedule for integrating the MATCHNow trading platform to Cboe technology.

During the call, Cboe will provide details regarding data center strategy, an integration timeline and enhancements to functionality. See the [Tradedesk Update](#).

Cboe Options Introduces AIM for SPX/SPXW During Regular Trading Hours, Additional AIM Enhancements

Effective **Monday, February 22**, subject to regulatory review, Cboe Options Exchange will introduce multiple enhancements related to support for AIM and Complex AIM (C-AIM) auctions in SPX and SPXW, activated during RTH.

Updates include maximum contract size for AIM and C-AIM auctions in SPX/SPXW during RTH, updated minimum price improvement on C-AIM executions in SPX/SPXW that include a combo portion, allowances for Market-Maker responses in AIM auctions in SPX/SPXW, and inclusion of the starting auction price (in SPX/SPXW only) in market data feed notifications. Testing is currently available in the Cboe certification environment. See the [Tradedesk Update](#).

Cboe Options to Launch Mini-Russell 2000 Index Options on March 1

Effective **Monday, March 1**, Cboe Options Exchange will begin listing mini options on the Russell 2000 Index. Mini-Russell 2000 Index options (MRUT) will be based on 1/10th of the value of the Russell 2000 Index. Cboe Silexx will also support Mini-Russell 2000 Index options on the effective date.

In addition to standard monthlies, Cboe plans to list Weekly MRUT options that will expire on Monday, Wednesday or Friday. Testing is currently available in the Cboe certification environment. See the [Tradedesk Update](#) and the [press release](#).

CFE Closing Time Change for Expiring Corporate Bond Index Futures

On **Monday, March 1**, Cboe Futures Exchange will adjust the closing time for expiring corporate bond index futures on their final settlement date from 2:00 p.m. CT to 3:00 p.m. CT.

The corporate bond index futures contracts affected by this change will be the IBHY/March 2021 future and the IBIG/March 2021 future. Trading hours for non-expiring IBHY and IBIG futures will remain unchanged. See the [Tradedesk Update](#).

Cboe Implements Final Phase of Market-Maker Account Validation Process

As previously announced, Cboe Membership Services enhanced its Market-Maker account validation process for BZX, Cboe, C2 and EDGX Options Exchanges to ensure proper registration with the OCC for use on the relevant exchange.

Effective **Monday, March 1**, an automatic system will now enforce the validation requirement for registered Market-Maker accounts, and Membership Services will no longer manually validate or contact firms. Testing is currently available in the BZX, Cboe, C2 and EDGX Options certification environments. See the [Tradedesk Update](#).

Cboe Silexx Enhancements

Cboe Silexx recently announced several enhancements including reactivation of deleted accounts, order ticket updates and more. See the [Tradedesk Update](#).

Cboe Options Exchange to Extend Global Trading Hours in Q4 2021

Cboe Options Exchange plans to extend its existing Global Trading Hours (GTH) session and introduce a 24x5 trading model in VIX and SPX options products in the fourth quarter of 2021, subject to regulatory review, and contingent upon completion of the OPRA Pillar migration in July.

There will be no changes to trading floor operations and the open outcry trading floor will remain open only for the Regular Trading Hours (RTH) session. Additional information and technical specification updates will be announced in future Tradedesk notices. See the [Tradedesk Update](#).
