THE LATEST FROM Cboe DATA VANTAGE

Access Open-Close Data on Cboe DataShop

Cboe's Open-Close Data is now available in one-minute interval files for Cboe C2 Options Exchange and Cboe BZX Options Exchange. The Open-Close Data set includes detailed trade categorization by participant type and contract size. It includes flexible data frequencies (as granular as 1-minute), enhanced analytics through integration with Cboe options Greeks, and near real-time monitoring of zero-days-to-expiration (0DTE) option flows. Learn more about Open-Close Data on Cboe DataShop.
